PART II.

DECISIONS OF GOVERNMENT IN REVENUE CASES.

MARCH 1892.

Serial No.	Proceedings.			Subject and Order.
	No.	Date.	To whom sent.	
1	14005—P. 267.	7th	The Deputy Commissioner of the Bangalore District.	In the matter of Petition No. 259, dated 25th April 1891, from Venkategauda, son of Venkategauda, residing in Tore Hosur, Closepet Taluk, appealing against Deputy Commissioner's order, refusing to allow him (Petitioner) to transfer one of his gardens in the name of one Konaiya and directing that the Patta should stand in the name of the Pattadar as before.—Read Deputy Commissioner's No. 715, dated 5th December 1891, submitting the proceedings in the case. *Order.*—The real question at issue between the parties is as to who is the owner of the garden in dispute, and whether Venkategauda *bin* Venkata, who presented the Razinama, which was presented and acted upon in 1889, was the proprietor of the garden and real Pattadar, and as such was entitled to alienate the property. The Deputy Commissioner has very properly referred the parties to a Civil Court for settlement of their disputes and establishment of their respective rights and pending the final adjudication of the Civil Courts, the entries in the Revenue Register made in 1889 need not be disturbed. This appeal is rejected.
2	14006—P. 216.	Do	The Deputy Commissioner of the Tumkur District.	In the matter of Petition No. 1771, dated 24th September 1891, from Beluraiya and others of Bodenahalli, Jemthenahalli and other villages, Gubbi Taluk, complaining against the Deputy Commissioner's order, granting the lands of the Muddenahalli village of the Kadaba Hobli (which was amalgamated with the Bodenahalli village during the Survey Settlement) to darkhastdar Venkata Sastri for an upset price of Rs. 17—6—3; and praying that the above order be cancelled and the said lands be either put up to public auction, or given to Petitioners on payment of Rs. 250, or let out to them for a permanent assessment of Rs. 105.—Read Deputy Commissioner's letter No. 643, dated 16th January 1892, submitting the vernacular proceedings in the case.

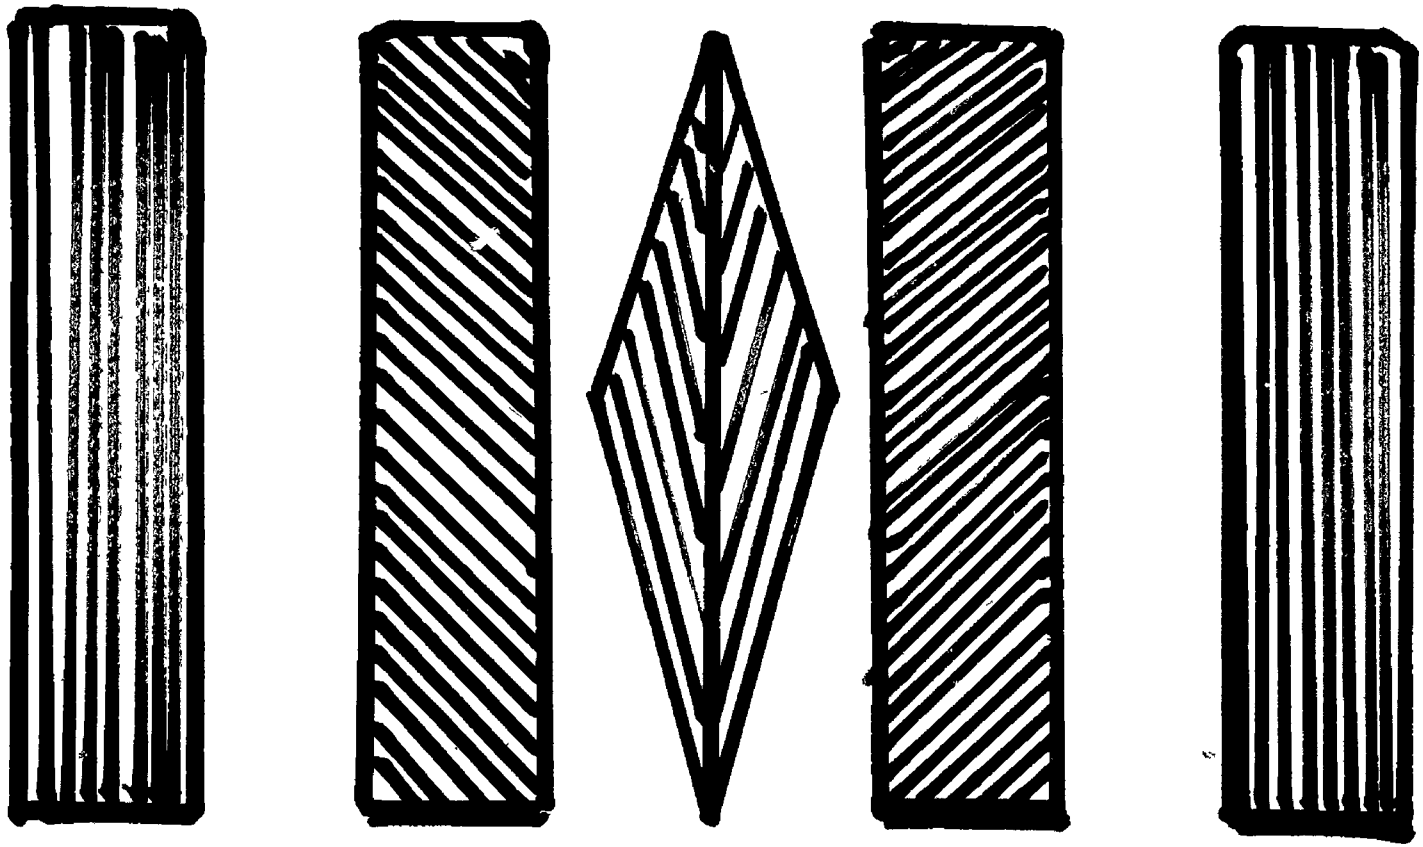

Serial No.	Proceedings. No.	Date.	To whom sent.	Subject and Order.
				Order.—The Petitioners' objections seem frivolous and untenable. Venkatesa Sastri was the only Darkhastdar and the land was granted to him on payment of the value of the trees, &c., standing thereon. The alleged "Mantap" seems to be valueless. The land itself was lying waste for many years, and as Petitioners did not care to apply for it, the Sastri's darkhast was properly complied with. This appeal petition is rejected as groundless.
3	14193—P. 221.	9th	The Deputy Commissioner of the Tumkur District.	In the matter of Petition No. 305, dated 5th May 1891 from Sathaiya and Lakkanna of Bajagur village, Tiptur Taluk, complaining against the Deputy Commissioner's order which was to the effect that double the highest dry rate of assessment be levied, as a punishment, from those raiyats that had unauthorizedly cultivated the bed of the breached Bajagur tank; and praying that the said raiyats be given smaller portions this year and the disappointed raiyats larger portions, and that the fines inflicted on the opposite party be enhanced, since they raised wet crops utilizing the water in the tank. *Order.*—Those who unauthorizedly cultivated the land were fined. No further orders seem called for. Petitioners' application for enhancement of fine, &c., cannot be entertained.
4	14620—P. 82.	15th	The Deputy Commissioner of the Shimoga District.	In the matter of Petition No. 628, dated 28th June 1891, Venkama Surappa of the Madasur village, Sagar Taluk, appealing against the Deputy Commissioner's order, declining to sub-divide his (Petitioner's) share in supari gardens No. 77 without the Khatedar Huliyappana Timmappa's consent, and referring Petitioner to the Civil Courts for the settlement of his claim; and praying that orders be issued to effect the sub-division applied for. *Order.*—As the registered Khatedar does not admit Petitioner's right to the portion of the Survey number claimed by him and objects to the "phod" applied for, the Deputy Commissioner has very properly referred Petitioner to the Civil Courts for establishment of his right. The Government decline to interfere with the Deputy Commissioner's order.

14621—P. 369.	15th	The Deputy Commissioner of the Mysore District.	In the matter of Petition No. 497, dated 10th June 1891, from Alasingrachari, Overseer, Palace Department, Mysore, praying that the water-rate imposed upon the "manyam" lands in the hamlets attached to the Sarvamanya Binakanahalli village, Tirumakudlu-Narsipur Taluk, be reduced from Rs. 3 to 1-8-0 per acre.—Read Deputy Commissioner's No. 666, dated 14th November 1891. *Order.*—The water-rate which was imposed by the Deputy Commissioner at Rs. 4 per acre was, by order dated 8th August 1890, No. 4800—250, reduced to Rs. 3. No further reduction can be made.
6 14618—P. 194.	17th	The Deputy Commissioner of the Hassan District.	In the matter of Petition No. 2593, dated 7th December 1891, from Mudda, son of Ranga, Kakkihalli village, Manjarabad Taluk, appealing against the Jamabandi officer's order, directing that a fine of Rs. 5 for unauthorizedly cultivating land No. 25 in the said village, together with proportionate assessment (Rs. 3-12-0) for 1890-91, be recovered from him (Petitioner) and the land resumed to Government; and praying that, on payment of previous years' assessment, he be left in possession of the land, as it had been in his occupancy for a long time.—Read Deputy Commissioner's No. 802, dated 26th February 1892, submitting the original Takrar Takhta containing the Jamabandi officer's order. *Order.*—As the Jamabandi officer, against whose order this appeal has been preferred, is an Assistant Commissioner, the appeal must be preferred to the Deputy Commissioner. (*Vide* Rule 1 of the Revenue Rules.)
7 15235—P. 297.	25th	The Deputy Commissioner of the Bangalore District.	In the matter of Petition No. 1871, dated 14th November 1891, from Krishnappa of Bevur village, Hoskote Taluk, appealing against Deputy Commissioner's order, dated 18th July 1889, declining to interfere in the Survey Superintendent's order, cancelling his original order that 10 acres of land out of Survey No. 6 of the said village be granted to Petitioner; and praying for the grant of the 10 acres of land referred to.—Read Deputy Commissioner's No. 1029, dated 15th March 1892. *Order.*—This appeal which is beyond time by more than a year is rejected.

Serial No.	Proceedings.			Subject and Order.
	No.	Date.	To whom sent.	
3	15236—P. 246.	25th	The Deputy Commissioner of the Tumkur District.	In the matter of Petition No. 376, dated 12th May 1891, from Hanumánta, residing in Hosadurga, Pavagada Taluk, complaining against Deputy Commissioner's order, rejecting, on the ground of limitation, his (Petitioner's) appeal against the General Assistant Commissioner's order, transferring the patta of his father's lands in the names of Kamakka (his father's 1st wife) and his divided cousin Ajjappa; and praying that the said patta be transferred in his name.—Read Deputy Commissioner's No. 416, dated 25th September 1891, submitting the vernacular proceedings in the case. *Order.*—Appellant failed to appeal against the Jamabandi officer's order to the Deputy Commissioner within the prescribed time. The order complained of was passed more than a year ago. Appellant may, if so advised, establish his right to the lands in a Civil Court.

In preparing the agricultural returns for the year 1890-91 in the forms recently revised by the Government of India and circulated with this office No. 6689-96—Cir. 119, dated 12th instant, careful attention should be paid to the following instructions.

2. In this and other two forms, *viz.* A 2 and A 3, Talukwar details should be furnished in the columns indicated therein by letters A, B., &c. Against heading No. 1 the *total* area of each Taluk as per Survey Settlement as recorded in the Atchkat return No. 28 should be entered. The area of jahgir, jodi, agrahar, sarvamanyam and kayamgutta villages inclusive of minor inams *comprised* in them should be deducted against sub-head (*b*) of heading No. 2 (the sub-head (*a*) being left blank) the difference between headings 1 and 2 B being exhibited against heading No. 3 Heading No. 4 should exhibit the figure shown against heading No. 3 if all the taluks in the District have already been surveyed and settled and if any of the taluks still remain to be settled, the area of such taluks (as per old bizvari converted into acres) minus the extent of jahgir, inam and kayamgutta, &c., villages together with the *total* extent shown against heading No. 3, should be entered in acres against heading No. 4, the details of the extent of such jahgir, inam and kayamgutta, &c., villages being also noted at the foot of the statement for reference. No deduction of the area of minor inams in Government villages need be shown under the head 2 *b* inasmuch as the particulars of crops (to be shown in form A 3,) could be easily ascertained as in the case of raiyatvar holdings.

3. The extent of *District* and *Village* Forests should be correctly ascertained as far as possible on a reference to the Revenue Survey maps or other records and entered under the head "Forests." As the area of State Forests and Plantations will be furnished by the Inspector General of Forests, no entry on this account need be made in the District returns. The areas to be shown against headings Nos. 3 and 4 should respectively represent the extent (*viz.* the area entered in the annual return No. 28 under column "Lands fit for cultivation") of assessed culturable waste and *uncultivated portions* of occupied kandayam and minor inam lands and shraya villages. The area of cultivated portions of raiyatvar and minor inam lands plus the cultivated area of shraya villages, if any, and of batayi lands, should be entered against heading No. 5, the extent to be shown against heading No. 2 being the difference between the figure shown against heading No. 4 of Form A 1, and the total of headings Nos. 1, 3, 4 and 5 of Form A 2 in question The particulars to be embodied against the several sub-heads of *major* headings Nos. 6 and 7 are the same as those that had hitherto been furnished in the statement of irrigation, except that the particulars of the irrigated area of minor inams in Government villages have now to be incorporated. It should be noted that the total of details given against the several sub-heads of heading No. 7 should correspond with the figure entered against the "Total area irrigated." In furnishing the above details, attention should be paid to the instructions laid down in this Office Circular No. 312-19—5, dated 22nd April 1890.

Form A 2 (Classification of area shown in column 4 of A 1.

6. With reference to foot note 3 attached to the return, Form B, the Deputy Commissioners are requested to select *important* markets in their Districts and ascertain the prices at which articles were sold on the last day of the official year, *viz.*, 31st March, and insert the average price in the return, the names of the markets thus selected and the prices at which the several articles named in the return were sold on the 31st March last, being noted in a separate column to be opened for the purpose. Under the head "Salt" the average of the retail prices and the description of salt (earth or sea salt), as is consumed by the *majority* or *bulk* of the population in the District, should be entered. Form D (varieties of tenure held direct from Government

Letter No 502—7-90, dated 13th February 1892, from the 1st Assistant to the Resident in Mysore, forwarding copy of a Memorandum drawn up in the Revenue and Agricultural Department of the Government of India, on the Agricultural Returns of the Mysore State for the year 1890-91.

From the Under-Secretary to the Government of India, Revenue and Agricultural Department, Circular No. 5—52, dated Calcutta, the 2nd March 1882.

It has come to the notice of the Government of India that the instructions contained in the first foot-note to Form B, Prices, of the Annual Agricultural returns, prescribed in Resolution No. 19—20, dated 20th July 1891, have not been clearly understood, misapprehension having probably been caused by the use of the phrase "prevailing during the year" in its application to wholesale prices.

2. The object to be served by the return so far as it relates to agricultural produce is, as explained in the 8th paragraph of the Resolution, to exhibit agricultural as distinguished from commercial prices, and it was desired that "average wholesale prices at the chief markets of those districts in which the agricultural commodity is largely grown" should be taken as giving the nearest approach to the prices obtained by the producer

3. It has, however, been represented that, "unless averages are calculated with due regard to the amount of traffic transacted during each period for which a rate is taken, they are apt to be very fallacious."

4. I am to explain that, in prescribing that the average prices prevailing during the year should be exhibited, the Government of India did not mean an average of quarterly prices or of prices ruling at regularly distributed periods throughout the year and advisedly left Local Governments to determine in each case (*vide* foot-note 3 to Form B) the dates upon the ruling rates of which prices should be ascertained.

5. The Government of India agree with the view that, to secure the object for which the return is designed, the average wholesale prices exhibited should be the average of prices ruling during the season when the particular commodity comes into the market and the wholesale trade in it is active. It will be for Local Governments to determine (1) what the period of active trade is for each commodity, and (2) the dates occurring during such period upon the prices of which the average shall be calculated.

6. I am to request that instructions for the compilation of the return may be framed accordingly.

No. 331-9—Cir. 3, DATED 6TH APRIL 1892.

ORDER THEREON.—The following supplementary instructions are issued for the guidance of the Deputy Commissioners in the preparation of the annual returns of Agricultural Statistics prescribed in Government Proceedings No. 6689-96—Cir. 119, dated 12th September 1891.

2. *Form A, Return A. I.*—The entire area of each Taluk, whether surveyed are not, should, in future, be entered in acres against heading No. 1 "area according to professional survey." From this area, the extent of jodi, kayamgutta, sarvamanyam and jahgir villages and of minor inams comprised in them, as well as that of the unsurveyed portions of Taluks, should be deducted in heading 2 (*b*), and the difference between 1 and 2 (*b*), shown in heading No. 3. Heading No. 4 "corresponding area in village papers" should show the figures entered in heading No. 3 plus the area of unsurveyed portions of Taluks.

3. *Form B.*—The Government of India have directed that the average wholesale prices exhibited in columns 2 to 17 of this return should be the average of prices ruling during the season when a particular commodity comes into the market and the wholesale trade in it is active. For this purpose, it will be necessary to determine (1) what the period of active trade is for each commodity and (2) the dates occurring during such period upon the prices of which the average shall be calculated. The Director of Agriculture and the Deputy Commissioners of Districts are requested to submit their opinions on these two points as early as possible.

4. The prices exhibited in Form B, should invariably be compared with those of the preceding year and a memo showing the causes of any marked fluctuations should be appended to it.

5. *Form C.*—The area entered in column 2 of this return should correspond with the figures entered against heading No. 1 of Form A. I.

6. The statistics of population to be entered in this return according to the Census of 1891 are given below. These figures shall be adopted till the next Census.

8. *Form D.*—An additional column should hereafter be opened in this return in which the total assessments upon which the averages entered in column 7 are struck should be exhibited, the total of such assessments against headings Nos. 1 to 5 being made to tally with the total kandayam of raiyatwar holdings shown in column 167 of the annual Nagadiyat return.

The Director of Statistics and Agriculture, with copy of Form B.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 12th April 1892.

READ AGAIN :—

Proceedings Camp No. 323—33, dated 24th September 1891.

Proceedings No. 14237-46—Cir. 211, dated 14th March 1892.

No. 1019-29—CIR. 4, DATED BANGALORE, 12TH APRIL 1892.

ORDER THEREON.—In the first of the orders cited above, are fully detailed the circumstances under which it was decided to make a new departure in the system of Toddy Administration by substituting for the former method of selling the exclusive right of drawing and vending toddy *by Districts*, a system of selling that right by *shops* and *groves*. Two Special Officers, Mr. J. G. McDonnell and Mr. B. Gopalaiengar, were deputed to conduct these sales all over the Province and to help the Deputy Commissioners in settling the details of the arrangements required for the introduction of the new scheme by the 1st April 1892, when the contracts under the old system were to expire. The work which demanded considerable tact from the officers entrusted with it has, the Government are glad to note, been completed in proper time and in a manner generally satisfactory.

2. The financial results have been eminently satisfactory, the expected revenue for the current official year under the new scheme being Rs. 14,02,887—4—7, inclusive of Local Cess, against Rs. 9,74,063—14—4 under the contract which has just expired, showing an increase of Rs. 4,28,823—6—3.

3. Such marked success could not have been obtained for the new scheme, in the very first year of its introduction but for the active interest taken by the Deputy Commissioners of Districts, and under their guidance by Amildars (with four exceptions to be hereafter noted) and Deputy Amildars, who, by their energy and industry, contributed in no small measure to the satisfactory completion of the new settlement. Under such circumstances, His Highness the Maharaja is pleased to direct that his appreciation of the good work which has been done be communicated to Deputy Commissioners and to the two Special Officers above named, and, through the Deputy Commissioners, to the Amildars and Deputy Amildars concerned, except the marginally named four Amildars who appear to have failed to exert themselves, and regarding whose conduct the Deputy Commissioners will be requested to report in due course with their explanation.

(1) Venkat Rao, Amildar of Chintamani.
(2) Narsinga Rao, Amildar of Channagiri.
(3) Ramaswamaiya, Amildar of Malvalli.
(4) Solomon Leighton, Amildar of Hiriyur.

4. The result of the settlement now made for each District is given in following statement:—

The total revenue of Rs. 14,02,887—4—7, shown in the foregoing statement, is inclusive of the Toddy Revenue of Inam villages, which amount to Rs. 38,323—5—6, for shops, and Rs. 19,352—14—3, for groves. Total Rs. 57,676—3—9. The net revenue to Government is thus **Rs. 13,45,211-0-10.**

5. The detailed settlement made under the new scheme led necessarily to the investigation of the value of the Toddy Revenue of Inam villages. The results which have been obtained will enable the Government to dispose, in the most satisfactory manner possible, of the claims of Inamdars entitled to the Toddy Revenue under their sannads, and in the meantime there will be adopted the system of indicating in the accounts the Toddy Revenue of Inamdars separate and distinct from the Government revenue. The maximum amount which the Inamdars can possibly claim now is Rs. 57,676—3—9, as shown above, but it is liable to be reduced upon an investigation of Inamdars' claims, some of which may have to be rejected as not supported by sannads or recognized long enjoyment. The Deputy Commissioners should now very carefully inquire into these claims and submit a full report in each case for the orders of Government.

6. The new scheme will further improve the condition of the class of Idigars whose vocation is drawing toddy from date trees, and who by hereditary usage are interested in the conservancy of date groves, but who had been much neglected by the contractors under the old system.

7. The ready realization of the increased revenue according to the new settlement and indeed its smooth and satisfactory working depend upon the interest which Local Revenue officers continue to take in the matter. The Government accordingly resolve to leave to Deputy Commissioners the practical working of the settlement now completed. The Deputy Commissioners should impress upon their Amildars to regard the administration of the Toddy Revenue as an important part of their duty.

8. It must be a first axiom in the working of the new settlement that no farmer shall, without the previous express consent of the Deputy Commissioner, in any way, disturb the arrangement made as regards the grouping of shops and assignment of vanams. It is understood that in a good many cases, where a grove or vanam used to supply toddy to several shops, the new settlement allows the farmer of each shop to resort to the *mamul* portion of the grove from which his shop used to draw its supply during the past contract. In such cases, if any disputes arise, they should be promptly dealt with to the satisfaction of all parties concerned.

9. In order to prevent the possibility of such disputes occurring hereafter and generally to facilitate the future Toddy administration, it is necessary that every grove required for the purpose of the Toddy Revenue should be carefully surveyed, and divided into a number of blocks sufficient for the convenient administration of the Toddy Revenue. Such blocks should be distinctly demarcated and the demarcation accurately shown upon village maps. The number of bearing trees in each block should be ascertained and recorded in such maps. A separate set of these maps should be maintained in each Taluk. The Survey Superintendent will be requested to depute for the early execution of this work under the Deputy Commissioners' orders, the number of Measurers required for this work in each District. Mr. McDonnell will, from information already in his possession, submit at once for the information of the Survey Superintendent, a list as complete as possible of the number of groves which have to be surveyed in each District. It is estimated that over 40 Measurers will be required for all the Districts, but this is a point which must be left for decision in the Survey Department. Should it be not possible to depute the full required number of Measurers at once for this duty, the Survey Superintendent, need, at present, only send out such smaller number as may be feasible, arranging, however, the

programme of work in a way likely to ensure its completion at as early a date as possible. A report of the Survey Superintendent's proposals will be awaited.

10. For the success of the Toddy administration, the special attention of the Deputy Commissioner is necessary to the following points, namely:—

(*a*) The due conservancy of existing vanams, including the prevention of the tapping of immature trees, the improper tapping by unskilled men, the injurious removal of leaves by rope and mat makers, &c.

(*b*) The prevention of theft of toddy from the trees, and the illicit drawing or sale of toddy, and

(*c*) The planting of new areas where necessary.

11. Toddy collections should be daily received as paid in any Taluk or District Treasury, and separate demand, collection and balance accounts should be kept as regards each farmer.

12. For the performance of all duties indicated in para 10, the services of the ordinary Land Revenue establishment should be utilized to the fullest extent possible, and the Government accordingly resolve to issue the following instructions on the subject:—

(*a*) In villages where vanams exist and have to be conserved, and theft or illicit drawing of toddy has to be prevented, the village servant (Toti, Talari or Kulvadi) must be employed for the purpose, under the orders of the Patel, and he should be paid for such work a remuneration of, say, Rs. 10 or 12 a year.

(*b*) The Toddy Revenue shall be collected by the Patel assisted by the Shanbhog. The Patel shall in addition be responsible himself to see that every shop and every vanam within his village is properly managed, that no theft or illicit drawing of toddy takes place, that the transport of toddy is made under proper authority and that no breach of the Excise Law is committed. The Shanbhog shall, in addition to helping the Patel in the duties above described, keep such registers as may be prescribed regarding the quantities of toddy drawn, consumed or transported. For the additional work as above, the Patel and Shanbhog will be remunerated by means of a small percentage on the annual collections in addition to their present remuneration from the Land Revenue.

(*c*) Above the Patel and Shanbhog there should be an officer called Abkari Inspector, corresponding in position to the Shekdar. In Taluks where the Toddy Revenue is light (as in the Malnad) the duties of Abkari Inspector shall devolve upon the Shekdars. But in other Taluks, a separate Abkari Inspector shall be appointed, two such officers being given to exceptionally heavy Taluks. For these appointments the best men possible should be selected as a rule from Abkari Amins who have had experience of the work under the former contract system, and who possess a good character. Where such men may not be available, the most qualified Shekdars should be selected for these posts. As much of the success of the Toddy administration in a Taluk will depend upon the ability and integrity of this class of officials, the Deputy Commissioner should give his personal attention to their selection. The salary given to the Abkari Inspector may for the present be Rs. 20 per mensem and the horse allowance of Rs. 10 per mensem. He should be directly subordinate to the Amildar or the Deputy Amildar.

(*d*) The whole responsibility of the Toddy administration within the Taluk or Sub-Taluk should rest upon the Amildar or the Deputy Amildar as the case may be.

13. It is believed that with the work distributed as described in the preceding para, the Deputy Commissioner will be able to deal with this branch of his duties in the most prompt and satisfactory manner possible. He is requested to issue at once for the guidance of Amildars and the village officers and village servants concerned the necessary detailed instructions to bring into immediate operation the scheme of distribution of duties as described in the preceding para, appointing (in anticipation of the sanction of Government to the detailed proposals for his District) such Abkari Inspectors as in his opinion are absolutely required for the various Taluks in his District. Having thus arranged for the practical working of the scheme in his District, he should lose no time in submitting for the sanction of Government, definite proposals, which should specifically state—

1*st*, the number of village servants in each Taluk who should be specially employed on Toddy duty and the remuneration to be paid to them;

2*ndly*, the number of villages, the Patels of which will have Toddy work and the remuneration he would recommend for them;

3*rdly* the number of Shanbhogs who can with advantage be employed on Toddy work and the remuneration he would recommend for them; and

4*thly* the number of Abkari Inspectors required for his District and the salaries and horse allowances he would propose for them.

The Deputy Commissioner should, at the same time, submit for the consideration of the Government any further suggestions he may wish to put forward for the better working of the new toddy system.

14. As regards help to the Deputy Commissioner, the Government think that it will be most convenient if, as in the North-Western Provinces (see appended Extract of paragraph 7 of the revised rules) the Excise Department of the District (including Toddy, Arrack and all other items of Excise Revenue) be primarily in the charge of one of his ordinary Assistant Commissioners. The work will be so slight as to permit of one of the present staff of Assistant Commissioners undertaking it in addition to his present duties. The Assistant Commissioner selected for it may, for a short time, say 6 months or so, be associated with the Excise Assistant Commissioner so as to enable him the more readily to become acquainted with the details of the work. Under the immediate orders of the Assistant Commissioner in special charge of Excise work of the District, there may be a Daroga whose salary will be according to the extent of the Excise work of the District. A Gumasta may be given to each District Treasury to compile the collections for the entire District and submit the same for the Assistant Commissioner's orders.

15. The Deputy Commissioners are invited to submit at an early date their opinions on the suggestions contained in the last preceding para, and, pending final orders thereupon and in order to meet the immediate requirements of the Toddy work, the two Special Officers employed upon the Toddy settlement will be directed to place themselves under the Deputy Commissioner's orders, and where necessary a Daroga and Gumasta on the marginally noted scale will be allowed for each District. The Special Officers (whose employment under these orders will be only for the short period of a few months, till the ordinary District establishment is able effici-

Gumasta on pay Rs. 15 per mensem.

ently to deal with the current Toddy work) may, with advantage, be employed under the Deputy Commissioner's orders and supervision :—

1*st.* To scrutinize and compile the mutchilikas obtained in each District, and examine and regularise the securities in respect of them.

2*nd.* To dispose of disputes, if any, which may arise regarding the particular portion of a vanam which should supply a particular shop (*vide* para 8 above).

3*rdly.* To determine the number of separate blocks into which a vanam should be divided for purposes of demarcation (*vide* para 9 above).

4*thly.* To submit to the Deputy Commissioner drafts of detailed instructions for the guidance of Amildars and subordinate officials regarding the distribution of duties connected with the Toddy administration (*vide* para 13 above).

5*thly.* To prepare a complete and separate record of the settlement made for each Taluk, in such form as will be of use to the Revenue authorities in the practical carrying out of the settlement. Of all such records, there should be one copy in the Taluk Cutcherry and another in the District Office, and

6*thly.* To do all work appertaining to the Toddy administration under the general guidance of the Deputy Commissioner.

16. The work described in the preceding para may, if necessary, be divided between the two Special Officers according to Districts, or according to the kind of work, as may be found most convenient.

17. In entertaining the establishment, sanctioned above, of Darogas, Abkari Inspectors and Gumastas, Deputy Commissioners will give such consideration as they may deem fit to the claims for re-employment of such members of the temporary establishment sanctioned up to the 31st March 1892, as may deserve to be taken on the permanent establishment.

18. The accounts connected with the temporary establishment up to the 31st March 1892 should be closed and submitted for information.

EXTRACT—PARA 7 OF THE NORTH-WESTERN PROVINCES RULES.

"The Excise Department in each District shall be primarily under the charge of an Assistant Collector or Assistant Commissioner, hereinafter called the officer in charge of the Excise Revenue, to whom all offences against the Excise Laws shall be reported, and whose duty it shall be to remain in Camp during the cold season, informing himself and keeping the Collector informed of every detail connected with Excise Administration. Detailed instructions should at the commencement of each cold season, be drawn up for that officer's guidance, noting the points requiring particular notice with reference to improvement of the Excise Administration in the District, and keeping in view the fact that, while Government in no way desires to stimulate the consumption of spirits, stringent measures must be taken to prevent illicit manufacture, and to ensure that no spirits shall leave a Distillery without payment of duty, so that Government may receive the full amount of duty on all spirits consumed."

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 27th April 1892.

READ :—

Docket No. 865 of the 2nd October 1890, from the Deputy Commissioner of the Mysore District, on the subject of royalty to be levied on lands given to the Railway for quarrying purposes.

No. 1522-31—CIR. 9, DATED BANGALORE, 27TH APRIL 1892.

ORDER THEREON.—The question of the levy of rent or royalty on stone quarried for Railway purposes has, for sometime past, been under the consideration of His Highness' Government. Of the officers who were consulted in the matter, the Deputy Commissioner of Chitaldroog suggested the adoption of the rate of one anna per annum per square yard of the entire area covered by the quarry worked, while the Deputy Commissioner of Tumkur recommended the sale of the quarries for a year, fixing the maximum rate per foot of stone beyond which, he thought, the lessee should not levy. The Deputy Commissioner of Mysore now suggests the adoption of the rate prevailing in some parts of Her Majesty's Territories of from 1 to 2 annas per cart-load calculated at 25 cubic feet per cart and paid by the actual quantities measured up in works. This suggestion is supported by the correspondence received in this office with Assistant Resident's letter No. 1283—7367 of the 14th April 1888, from which it is clear that a royalty of 8 annas per 100 cubic feet measured in the building is levied by the Bombay Government for stone quarried and removed from Government lands for Railway works. The imposition of such a rate is also suggested by the Chief Engineer and Agent of the Southern Mahratta Railway Company for stone quarried for Railway purposes in Mysore.

2. The Southern Mahratta Railway Company has no doubt had the quarries practically free of rent or royalty on the Gubbi-Haribar line, but this is no good ground for continuing the exemption in favor of any Railway, in course of construction or which may hereafter be constructed in Mysore, especially as a separate capital and revenue account is maintained for all Railways in which the value of stone paid to Government may well be incorporated.

3. His Highness' Government accordingly direct that a royalty varying according to local circumstances, from annas 4 to anna 1 per cart-load, be levied on all stone removed for Railway purposes.

4. A considerable portion of this increase is due to the proposed purchase of Mahouts' tents from England, to the feeding of the kumkis with grain, to the employment of additional Shikaris and the Khalihat establishment and to the appointment of an Assistant Superintendent for the Khaddas. As to the last mentioned appointment, it is now proposed to dispense with the services of the Field Inspector and thus reduce the provision made in the budget for establishment by Rs. 2,400. This is approved, and the expenditure budget which is corrected to Rs. 73,500 (in round figure) is sanctioned and transmitted to the Comptroller with the remark that the necessity for ordering tents from England and the expediency of doing so when exchange is so high are extremely doubtful, and therefore the special previous sanction of Government should be obtained before these and other stores are ordered from England.

FINANCIAL.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Financial),—dated 12th April 1892.

READ:—

Letter from the Superintendent of the Government Press, No. 20 of the 4th April 1892, submitting proposals for the despatch of printed forms and registers by rail with reference to Proceedings No. 14475-514—Cir. 216 of the 10th March 1892, and soliciting additional grants to meet the charges to be incurred.

No. 773-811—Cir. 3, DATED BANGALORE, 12TH APRIL 1892.

ORDER THEREON.—The Superintendent of the Press, Stationery and Stores should require the indents for forms and registers to be submitted along with the indents for stationery; and the registers and forms required should be ready for issue before the beginning of the year, along with the stationery. There ought to be no difficulty in arranging for this, by printing off the forms, &c., a few months before the commencement of the year. Any urgent requisitions received after the annual supply has been sent can of course be complied with and such forms sent by post in parcels not exceeding 600 tolas each. In short there is no doubt that the Superintendent of the Government Press understands the spirit and purpose of the instructions contained in Proceedings No. 14475-514—Cir. 216 of the 10th March 1892, and Government rely upon his doing his best to give effect to them. The grant of Rs. 250 asked for for the purchase of packing cases, materials, &c., by the Superintendent, Government Press, is sanctioned. It is understood that the expenditure on this head will be partly recouped by the sale of the packing cases, &c., when emptied of their contents in the receiving offices. The parcels by Railway should be prepaid, the actual charges being debited to accounts, and the amount reported after six months' trial. Parcels for offices which are not at places on the Railway line will be received by the Amildars of Taluks at the nearest Railway Stations and forwarded to their destination.

Docket from the Deputy Commissioner of the Bangalore District, dated 21st March 1892 No. 1046, submitting for orders docket No. 363, dated 13th February 1892, from the Compiler, Mysore Gazette, demanding the adjustment of Rs 75 for having published and printed the Proceedings of the District Fund Committee.

READ:—

Docket from the Compiler, Mysore Gazette, dated 4th April 1892, No. 2, stating, with reference to this office docket, dated 30th March 1892, No. 15263—1639, that the District Funds being separate from general revenues and the publication being first of the kind, a bill was sent at the rates usually charged for insolvency applications and heirship notices.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Financial),—dated 14th April 1892.

No. 836-7—L. 167, DATED BANGALORE, 14TH APRIL 1892.

ORDER THEREON.—It is observed that the argument deduced from the analogy of heirship certificates and insolvency applications is not relevant to the question at issue, as these are published for the benefit of private parties and at their cost. The Local Fund Boards being constituted under the rules of 1874 having the force of law, the true analogy is furnished by the practice obtaining as regards the publication of the Proceedings of the Bangalore and Mysore Municipalities, for which no charge is made by the Gazette Office. The Government accordingly direct that the Proceedings of the District Fund Boards be printed and published free of charge in the same way that Proceedings of the Bangalore and Mysore Municipal Boards are published.

Letter from the Deputy Commissioner of the Hassan District, dated 7th April 1892, No. 18, reporting with reference to Government Proceedings, dated 17th March 1892, No. 14614-5—1511, that, including the notifications of sanction submitted subsequent to the date of the above Proceedings, the total amount appropriated for works is Rs. 3,049, having unutilized a balance of Rs. 5,847; and that the amount would be fully expended if the Government allow the disbursements being closed by 30th June 1892, which is the end of the official year as per recent orders.

No. 924-32—L. 191, DATED 16TH APRIL 1892.

ORDER THEREON.—The proposal of the Deputy Commissioner to allow the disbursements being closed by 30th June 1892 cannot be approved. As usual, the official year has expired by 31st March 1892, on which date the grants made from District Funds and Local Funds General for the year 1891-92 have necessarily lapsed. If drinking water wells or other works are urgent, the Deputy Commissioner is authorized to commence them at once in anticipation of sanction, submitting estimates and notifications of sanction in the usual course. The cost of such works should, in the first instance, be met from provisions made in the District Fund Budgets for 1892-93 under "(*b*) works to be executed by Revenue Department" and if no provision exists for them or it is otherwise utilized already, an application should at once be made for funds required or they should be included in the list of works to be executed out of the allotment of Rs. 15,000 sanctioned for each District in Government Proceedings, dated 2nd March 1892, No. 13717-26—L. 1417.

III. Collection.—The provision originally sanctioned under this head consists of 1 Mutsaddi at Rs. 6 per mensem with contingencies, Rs. 6. It is not stated whether the reduction of Rs. 22 proposed is wholly in the pay of the Mutsaddi or partly from his pay and partly under contingencies. This needs explanation.

IV. Conservancy.—There are at present 4 Road Sweepers at Rs. 6 each and a cart at Rs. 15. A lump sum reduction of Rs. 39 is recommended without specifying the particular item to be curtailed. This information should now be furnished.

VIII. Public Works.—The amount originally sanctioned for "(*g*) Water-supply repairs" is Rs. 15 only and not Rs. 35 as erroneously shown in the statement of reduction furnished by the Deputy Commissioner. The necessary correction has been made in this office.

X. Education.—The Government presume that the pay of the English Master of the newly started English school is Rs. 8, of which three-fourths or Rs. 6 are met from Municipal Funds.

There is still a debit balance of Rs. 135 against the Municipality and the Deputy Commissioner should endeavour to reduce the expenditure still further. The Comptroller is, however, authorized to pass the usual charges, subject to adjustment during 1892-93.

The other items of receipts call for no remarks.

4. The estimated opening balances of this and other Municipalities have not been correctly calculated by the Deputy Commissioner. The balances shown in the following statement prepared in this office should be adopted.—

The provision is allowed to stand in the Budgets of this and other Municipalities.

7. *IV. Conservancy.*—The provision made for the pay of an additional sweeper on Rs. 4 proposed to be entertained accounts for the increase in the estimate, which is sanctioned.

8. *VIII. Public Works.*—The works noted below are proposed to be executed during 1892-93. The estimate is approved.

10. The other items call for no remark.

35. *VII. Collection.*—The increase under this head is due to the proposed entertainment of an additional peon on Rs. 7 per mensem for special duty at the Railway station to prevent smuggling in respect of articles subject to Octroi duty. It is observed that there is already a peon on Rs. 4 per mensem besides a Mutsaddi on Rs. 7. If an additional peon is absolutely necessary, the Government will not object to his entertainment, but his pay should be the same as that drawn by the other peon, *viz.*, Rs. 4. The provision under this head will accordingly be reduced by Rs. 36.

36. *VIII, Public Works.*—Owing to the paucity of funds, the provision made for drinking water supply and the construction of roads and bandy-stand amounting to Rs. 8,200 will be struck out and the balance sanctioned as shown under:—

42. *VII. Lighting.*—The provision under this head will be allowed to stand; but the President is requested to consider whether it is not advisible to give up lighting till sufficient funds are available.

43. *VIII. Public Works.*—Owing to the insufficiency of funds, the provision made for the marginally noted works will be struck out altogether; but the item of Rs. 200 on account of compensation for lands required for a burial ground will be retained, to be utilized if absolutely necessary.

44. X. *Education*—For want of funds, the new provision made for school furniture, (*viz.* Rs. 50) will also be disallowed.

49. Adding Rs. 462, the estimated opening balance, to the anticipated income, the sum available for expenditure during 1892-93 is 892, of which Rs. 211 are proposed to be expended, leaving a balance of Rs. 681 at the end of the year.

53. This Municipality was constituted under the orders of Government, dated 10th September 1890, No. 7216-17—805, but it has since been abolished on the recommendation of the Deputy Commissioner. No Budget Estimates have, therefore, been submitted for 1892-93. It is presumed that no collections have been made during 1891-92 and that there is no balance at the credit of the Municipality.

SALIGRAM.

54. The income of this Municipality for 1892-93 estimated by the Board amounts to Rs. 587 against Rs. 498, the actuals of 1890-91. The estimates, which are based upon the Jamabandi, call for no remark.

Adding to this the estimated receipts for 1891-92 and subtracting from their total the sanctioned expenditure for the year, the estimated balance in favor of the Municipality on 1st April 1892 is Rs. 605. This being added to the estimated receipts, the sum available for expenditure during 1892-93 is 1192, of which Rs. 1,118 are proposed to be expended, leaving a balance of Rs. 74 at the end of the year.

PART I.

GENERAL.

Proceedings of the Government of His Highness the Maharaja of Mysore, *(General),—dated 16th April* 1892.

OFFICIAL MEMORANDUM.

No. 1108-1147—Cir. 5, dated 16th April 1892.

In their Official correspondence with the Chief Secretary, Officers will be good enough to enjoin a strict observance of the following instructions on the part of their Head Clerks :—

1. The communications should be covered by the prescribed docket on which should be entered the subject of the communication in abstract, as well as the other particulars for which separate headings are provided. These should not be left to be ascertained from an office rubber seal stamped at the top.

2. The above direction should not be evaded by engrossing the communication on the docket form itself. Communications, except reminders, should be engrossed on full sheets of foolscap with the usual inner margin of at least one-fourth width of paper.

3. For dockets, the printed forms should be used. The Superintendent of the Government Press will supply these forms on indent. They should be printed on foolscap paper only and not on flimsy paper as has sometimes been done.

4. Communications to Government should treat of only one subject each. When a subsequent reference is made on the same subject, the subject matter of the reference should be repeated as well as its number and date.

T. ANANDA ROW,
Chief Secretary.

To—The Deputy Commissioners of Districts.
The Superintendent, Government Press, with specimen docket form.

Proceedings of the Government of His Highness the Maharaja of Mysore, (General),—dated 16th April 1892.

OFFICIAL MEMORANDUM.

No. 1108-1147—Cir. 5, dated 16th April 1892.

In their Official correspondence with the Chief Secretary, Officers will be good enough to enjoin a strict observance of the following instructions on the part of their Head Clerks :—

1. The communications should be covered by the prescribed docket on which should be entered the subject of the communication in abstract, as well as the other particulars for which separate headings are provided. These should not be left to be ascertained from an office rubber seal stamped at the top.

2. The above direction should not be evaded by engrossing the communication on the docket form itself. Communications, except reminders, should be engrossed on full sheets of foolscap with the usual inner margin of at least one-fourth width of paper.

3. For dockets, the printed forms should be used. The Superintendent of the Government Press will supply these forms on indent. They should be printed on foolscap paper only and not on flimsy paper as has sometimes been done.

4. Communications to Government should treat of only one subject each. When a subsequent reference is made on the same subject, the subject matter of the reference should be repeated as well as its number and date.

PART I.

GENERAL.

Proceedings of the Government of His Highness the Maharaja of Mysore, (General),—dated 2nd April 1892.

ORDER NO. D. 298, DATED BANGALORE, 2ND APRIL 1892.

In the Districts of Bangalore, Mysore, Kolar, Tumkur and Chitaldroog, in the Taluks of Arsikere and Channarayapatam in the Hassan District, in the Taluk of Kadur in the Kadur District, and in the Taluk of Channagiri in the Shimoga District, the Government hereby direct the remission of one half assessment for the year 1891-92, on *wet* lands, *i.e.*, lands classed as "Rice" under tanks, provided that such lands have, owing to the absence or failure of water in the tanks, either actually lain waste or yielded no crop, though cultivated. The Deputy Commissioner, in giving the needful instructions to Jamabandi officers and Amildars to carry out the above order, must make it clearly known to them that the concession of remission granted as above is only in respect of lands, of which the source of irrigation is a *tank*, and not a river channel, well, spring or other such sources. The Government trust that local officials will take special care to ensure the concession being strictly restricted to cases in which the lands could not be cultivated, or, being cultivated, yielded no crop owing to the tank having received no supply of water, or to the scanty supply it received having been found insufficient.

2. Water rates for use of tank water, where not incorporated with the wet assessment, should be altogether remitted under the conditions above laid down as regards lands assessed as wet.

3. The investigation already ordered has placed at the Deputy Commissioners' disposal full information regarding all wet lands in their Districts which have been waste or on which the crops failed because of the failure of water in tanks, and the Government rely upon their being able readily to prevent any abuse of the order for remission now given.

4. Another point upon which the District officer cannot be too careful is the necessity for taking proper precautions to prevent the remission being intercepted and appropriated by the village officials, as not unfrequently happened in regard to the remissions ordered in Bahudhanya (1878-79.) In most cases the raiyats entitled to remission under this order could only have paid two khists during February and March, that is to say 8 annas in every rupee. In such cases the remaining 8 annas should be remitted to them. In exceptional cases where they may already have paid more than 8 annas in the rupee, the excess paid over 8 annas should be refunded to them.

5. The remission hereby granted should be at once published as widely as possible.

6. Careful immediate inspection should be made of Raiyats Receipt Books, and simultaneously the Shanbhogs should frame statements showing the cases in which remissions have to be granted. These should be carefully scrutinized by the Amildar and Assistant and Deputy Commissioners with reference to information already collected as to state of crops and condition of tanks as to water supply in the various villages. These and all other necessary safe guards should at once be adopted by the Deputy Commissioners.

(NOTE.—* These figures are entered in this office as representing the daily average attendance during the fortnight. The figures given in the Return for the 3 works in the Goribidnur Taluk make a total of 1,776, which is probably the total of the daily attendance during the fortnight.)

2. No work was done, and hence there was no outlay, during the fortnight, on 8 out of the 79 works, namely 4 in the Chintamani Taluk, 2 in the Srinivaspur Sub-Taluk, 1 in the Gudibanda Sub-Taluk and 1 in the Bowringpet Taluk. Of the 4 works referred to, in the Chintamani Taluk, one has been completed.

3. There were no coolies at work on the last day of the fortnight on 4 of the works though there was progress on them during the fortnight. On one work in the Bagepalli Taluk there was but one cooly.

4. The works were all on the Amani system. They were in charge of Patels excepting 1 in the Malur Taluk which was in charge of a Shanbhog.

The wages were 3 annas a head cooly and 0-2-0 to 0-2-4 to a male cooly 0-1-6 to a female cooly and 0-1-0 to a child.

The management and supervision were efficient and the wages considered sufficient.

II. COLLECTION OF TANGADI BARK.—A sum of Rs. 124-1-7 was spent on this as follows:—

Taluk.	During the fortnight under report.			During the previous fortnight.		
Kolar	19	7	6	19	3	4
Chintamani	7	6	6	9	6	4

The wages paid were the same as those reported in the last fortnight.

III. Drinking Water Wells.—The number of wells sanctioned and the number under construction were as follow :—

Besides the above, the removing of silt from, and the sinking of a well in, the bed of the Dasarathakunte, Kolar Town, were under taken and a sum of Rs. 172-7-5 spent on them during the fortnight. The wages paid on these were 6 annas to a head cooly and 4 annas to an ordinary male cooly.

No. D. 299, dated Bangalore, 4th April 1892.

Order thereon.—The Return No. 1 is incomplete in that it does not give, in respect of 10 out of the 11 works in the Malur Taluk, the names of villages from which coolies came to them and their distances, and in respect of Malsettialli tank work, Sidlaghetta Taluk, the number of coolies at work on them on the last day of the fortnight. There is an apparent error as regards the number of coolies on the 3 works in the Goribidnur Taluk on the last day of the fortnight. 1,676 persons, as the return shows, could not have been on the works on the last day of the fortnight for it is impossible to believe that from the single village of Somsettihalli, so many as 806 coolies attended the tank work at that place or that so many as 656 persons from Vaddenhalli and 2 adjacent villages attended the tank work at Vaddenhalli. The amount spent on these works during the fortnight was comparatively small namely Rs. 90 odd and 74 odd respectively. There is thus reason to think that the figures given for the Goribidnur Taluk represent the aggregate of daily attendance for 15 days and not the number at work on the last day of the fortnight. Upon this assumption the average daily figures has been calculated and entered in this office, and the Deputy Commissioner should report the correct figures as early as possible.

2. The aggregate amount spent would be Rs. 12,648-4-7 as follows :—

	Rs.	A.	P.
1. Amount spent according to the first return, which was up to 30th January 1892	3,462	2	5
2. Amount spent according to second return, which was up to 15th February 1892	2,526	4	11
3. Amount according to the third return which was up to 29th February 1892	3,448	5	0
4. Amount spent according to the fourth return, which is the one under review	3,211	8	3
Total.....	12,648	4	7

and not Rs. 12,598-14-4 as stated in the Return under review. It is seen that the discrepancy was due to inaccuracy in the sums entered against the Singanhalli tank, Gudibanda Sub-Taluk. The amount spent on this work was :—

	Rs.	A.	P.
According to the 1st Return	109	12	0
Do 2nd do	49	6	3
Do 3rd do	33	15	6
Do 4th do	4	7	3
Total.....	197	9	0

but the third return gives Rs. 143-11-6 as the aggregate for that period instead of Rs. 193-1-9, and the fourth return Rs. 148-2-9, instead of Rs. 197-9-0. The discrepancy should be explained or corrected.

3. It is clear the returns have not been scrutinized in the Deputy Commissioner's office. Mistakes such as those noticed regarding the number of coolies lead to grave misapprehension of the actual state of things and the Deputy Commissioners cannot too strongly impress on the officers concerned the importance of carefully preparing and checking these returns.

4. The Billandahalli Irla Amanikere in the Chintamani Taluk was completed during the previous fortnight at a cost of Rs. 320 against an estimated cost of Rs. 300. As the work is no longer under progress, it should not be shown with such as are still under progress. Works completed, with the sums spent thereon, should be shown in a footnote.

5. The Dewan is anxious that the Drinking Water wells which are under progress should be completed without delay. The attention of the Deputy Commissioner is drawn to the orders passed on the subject in Proceedings No. D. 293, dated 31st March 1892 on review of the returns of the Shimoga District.

Report (of which an Abstract is given below) on the condition of the Bangalore District for the fortnight ending 14th February 1892, received with docket No. 25, dated 3rd March 1892, from the Deputy Commissioner of Bangalore.

ABSTRACT.

1. STANDING CROPS.—Sugar-cane was maintained by lift irrigation in a few parts in the Nelamangala and Devanhalli Taluks. In other places it was withering. Melons in the beds of the Nagarkere, Kakolekere and Hunganur Tanks were thriving. Bengal-gram in some tank beds in the Nelamangala Taluk failed for want of moisture.
2. FOOD GRAINS.—Supply sufficient. Prices stationary. Rice 6¾ seers per Rupee at Bangalore and 7 to 8 seers at the Kasbas of other Taluks. *Ragi from* 14 *to* 20 seers, excepting at Nelamangala, where it was 10 seers a Rupee.
3. FODDER Scarce.—Paddy straw imported from Seringapatam by a few raiyats of the Closepet Taluk. Cattle in parts of the Kankanhalli Taluk taken to bordering jungles.
4. WATER-SUPPLY.—Want of water generally felt. Little water left in the best tanks of the District. Most of the wells were dry and others were rapidly going down.
5. GENERAL CONDITION.—Public health good. Fever and small-pox prevailed to some extent in the Magadi Taluk. There was some demand for labor in the Devanhalli and Dodballapur Taluks.
6. RELIEF MEASURES.—The sum of Rs. 8,000 granted for Village Relief Works was allotted to the said two and other Taluks. Rs. 500 paid to the Superintendent of Government Gardens for removing silt in the Lal-bagh tank as a relief work.

No. D. 303, DATED BANGALORE, 4TH APRIL 1892.

ORDER THEREON.—The statement that the price of ragi was 10 seers per Rupee at Nelamangala cannot be correct, for the Santé Reports show that at the several Santés held at Nelamangala between the 15th January and 19th February 1892, ragi was sold at 16 seers per Rupee. The discrepancy should be explained in the next season report.

Report (of which an Abstract is given below) on the condition of the Hassan District for the 2nd fortnight in February 1892, received from the Deputy Commissioner of Hassan.

ABSTRACT.

1. STANDING CROPS.—Kar paddy under some big tanks in the Maidan parts of the Hassan Taluk was in a good condition, and sugar-cane, paddy, Bengal-gram, &c., in the Channarayapatna Taluk and Grama Sub-Taluk were in a fair condition. Horse-gram in the Holé-Narsipur Taluk was estimated at 6 annas.
2. FOOD GRAINS.—There was sufficient stock and markets were freely supplied. The recent harvest had however no effect on the prices which were—Rice 8 to 10 seers per rupee, Ragi 18 to 20 seers.
3. FODDER.—Available in all the Taluks, except parts of the Arsikere Taluk, where date leaves were being used.
4. WATER SUPPLY.—Sufficient, except in portions of the Channarayapatna, Arsikere and Holé-Narsipur Taluks. Raiyats had sunk new wells and cleared the old ones. Estimates for additional wells, where they were absolutely necessary, called for.
5. GENERAL CONDITION.—Small-pox prevalent in the Hassan and Arkalgud Taluks. Otherwise public health was generally good. In many places raiyats were still engaged in harvesting their crops. There was no need for Relief Works except in parts of the Holé-Narsipur, Arsikere and Channarayapatna Taluks. Estimates for the same were being prepared.

No. D. 306, DATED BANGALORE, 5TH APRIL 1892.

ORDER THEREON.—It appears from para 4 of the abstract above that the water-supply was failing in the Channarayapatna, Arsikere and Hole-Narsipur Taluks. It is not stated whether any wells have been sunk by Government in those tracts, and the return as to the progress of Drinking Water wells prescribed by Government Proceedings No. D. 152, dated 16th February 1892, has not been submitted for the Hassan District up to date. The Deputy Commissioner has a considerable sum of money at his disposal for the construction of Drinking Water wells, and he should at once provide as many such wells as possible.

2. If, as appears from para 5 of the abstract above, Relief Works are needed in the Hole-Narsipur, Arsikere and Channarayapatna Taluks, it is not clear why no Relief Works have been provided there up to date, although a sum of Rs. 3,000 has been in the Deputy Commissioner's hands from the 26th January 1892, (*Vide* Order No. D. 119). An explanation on this point should be submitted at once.

ABSTRACT.

1. VILLAGE RELIEF WORKS.—The following table shows the number of works under progress, the number of coolies on them, and the amount spent :—

The works were all on the Amani system, and were all excepting one, in the charge of Patels. There was no complaint as regards the efficiency of management and supervision of the works.

The wages were 0—2—3 for each male cooly, 0—1—6 for each female cooly, and 0—1—0 for each child, coolies were still demanding higher wages, but the rates fixed were in accordance with those prescribed by Proceedings No. D. 178, dated 19th February 1892.

II. DRINKING WATER WELLS.—The following table shows the number sanctioned and the number under construction :—

Those remaining under construction were in different stages of progress and nearly Rs. 3,0 had been spent.

No. D. 308, DATED BANGALORE, 5TH APRIL 1892.

ORDER THEREON.—The Statement No. 1 was incomplete as the Amildar of Jagalur had not sent his return. The supplemental return promised by the Deputy Commissioner has not been received, but a comparison of the figures given for the fortnights which preceded and followed the one under review show that there was no outlay during the fortnight in question on the single work under progress in the Jagalur Taluk.

2. The return submitted by the Deputy Commissioner showed only 20 works and omitted those (namely 3 in the Hiriyur Taluk and 1 in the Challakere Taluk) on which no coolies came to work during the fortnight under review, though there was some progress on them in the previous fortnights. The omission referred to led to an error in the aggregate amount spent, which has been rectified. The return should in future show all the works that have been started and kept open.

3. In the majority of cases in this District, the coolies belonged to the villages in which the works themselves were situated.

4. The Deputy Commissioner's note that there was no complaint made regarding the efficiency of management and supervision of the works cannot be considered sufficient. He should state what opinion he was able to form on that important matter on inspections and enquiries made by him.

READ :—

The following report on the condition of the Tumkur District, for the fortnight ending 15th March 1892, received with docket No. 990, dated 27th idem, from the Deputy Commissioner of Tumkur.

1. HARVEST.—No crop was harvested during the fortnight.
2. STANDING CROPS.—Vaisakha paddy under wells is in fair condition, but those under tanks are gradually failing. Jola and Bengal-gram in tank beds are also generally withering away; but those in the beds of Gollahalli and Beldara Tanks in the Tumkur Taluk and Dharmasagara and Hulikunte Tanks in the Koratagere Sub-Taluk were pretty good when I saw them lately.
3. FOOD GRAINS.—No change in the prices of food grains. Markets are well supplied.
4. FODDER.—Scarcity of fodder is very great. In some places people are disposing of their cattle for low prices. Cattle seen by me looked very poor. For small bundles of ragi straw, 5 or 6 annas are demanded, and for a bundle of paddy straw from 1 rupee to 1½ rupee.
5. WATER.—Water is getting less in some parts; but the excavation of fresh water wells at Government cost is a source of very great encouragement. Estimates are being daily sanctioned for them, and their execution is being rapidly pushed on.
6. DEMAND FOR LABOR.—Demand for labor is now slightly on the increase. All the Relief Works hitherto sanctioned are being pretty freely resorted to by the neighbouring villagers.
7. GENERAL CONDITION.—Influenza has appeared at Borankanave and some other places in the District, and reports have been received to the effect that two or three people succumb daily to the effects of the malady.

READ ALSO :—

The following report of the Assistant Commissioner in charge of the Maddagiri, Sira and Pavagada Taluks on the condition of these Taluks for the same period, received with the above.

1. HARVEST.—Has been completed in most places.
2. STANDING CROPS.—Vaisakha paddy and sosi ragi are moderately good.
3. CULTIVATION.—There has been no cultivation during the fortnight.
4. PRICES.—Remain unaltered. Markets received a good supply. 2nd sort rice sold from 7 to 8 seers and ragi from 16 to 18 seers.
5. FODDER.—In a few places, straw of cholam harvested is available. Generally speaking, the fodder difficulty is increasing. Amrut Mahal kavals look parched up.
6. GENERAL CONDITION.—Labor for Relief Works that have been opened in all these 3 Taluks is not easily procurable. Nearly 500 coolies are now working, four-fifths of whom are in the affected Taluk of Sira, where good progress is begun to be shown, one-tenth of the estimated amounts for restoration of several useful tanks having been spent during the last two fortnights.

ABSTRACT.

I. VILLAGE RELIEF WORKS.

Works under progress were the three that were started during the previous fortnight, in the Malvalli Taluk. The number of coolies on them on the last day of the fortnight under report was 79 against 107 in the previous fortnight. The amount spent was Rs. 86—4—0 against Rs. 175 in the previous fortnight.

The works which are carried on on the Amani system continued to be in charge of Patels. The wages were the same as those reported in the last report.

II. MISCELLANEOUS.

(1) *Relief to Weavers.*—

A sum of Rs. 2,000 was advanced to Weavers in Melkote. Cloths to the value of Rs. 85—5—0 have been delivered to the Government Sahukars.

(2) *Improvement of Village Sites.*—

A sum of Rs. 65 has also been advanced for improvement of village sites at Sivapur, Mandya Taluk. Lists for such works have been called for.

III. DRINKING WATER WELLS.

The following table shows the number of wells sanctioned, the number completed and the number under construction :—

Proceedings of the Government of His Highness the Maharaja of Mysore, (General),—dated 5th April 1892.

No. **D.** 311, DATED BANGALORE, 5TH APRIL 1892.

ORDER THEREON.—The aggregate amount spent on the Kuntur tank work up to the end of the fortnight was Rs. 61—4—2 and not Rs. 50 as stated in the return No. 1. The mistake has been rectified in this office.

2. No amount is stated to have been spent on the Halagur tank work during the fortnight, although some coolies were working on it on the last day of the fortnight. The Deputy Commissioner is requested to state if the entry is correct.

3. It is noticed that neither the Sub-Division officer, nor the Deputy Commissioner has recorded any remarks regarding the efficiency of the management and supervision of the works. The local officers should invariably note their opinion on this important matter.

4. No particulars are given regarding the working of the Bamboo Depôt at Hospete Basavapura, though the depôt was started in the previous fortnight. They should be furnished in the next return.

5. Five wells only are shown as remaining under construction in the Chamrajnagar Taluk, though, inclusive of those sanctioned during the fortnight, there were 12 for construction and none had been completed. No wells are shown as remaining under construction in the Seringapatam Taluk, though, if the entry that no wells were completed be correct, there must have been 10 wells remaining under construction. These discrepancies should be explained.

Letter No. 3865—912, dated 31st March 1892, from the Deputy Commissioner, Kolar District, reporting the case of a boy, 4 or 5 years old, who was refused admission to the Hospital, where his parents were under treatment, and soliciting orders as to how the cost of feeding the boy should be met.

No. **D.** 312, DATED BANGALORE, 5TH APRIL 1892.

ORDER THEREON.—The expenditure already incurred by the Deputy Commissioner in this particular case must be charged to "Gratuitous Relief."

For the purpose of such gratuitous relief under the terms of the Provisional Famine Code, a sum of Rs. 1,000 for each of the Districts of Mysore, Bangalore, Kolar, Tumkur and Chitaldroog is sanctioned. This form of relief should be administered in accordance with the provisions of the Code.

The Senior Surgeon (to whom a copy of the Deputy Commissioner's letter will be sent) is requested to report on the conduct of the Assistant Surgeon at Kolar as brought to notice by the Deputy Commissioner, and also to issue general orders to all Medical subordinates to the effect that when a mother is admitted as an in-patient, any child of tender years depending upon her should also be admitted, when there is no one else who can look after it. This is a commonsense and humane arrangement, and the Kolar Assistant Surgeon who turned the helpless child out of the Hospital, deserves to be severely censured.

No. D. 313, DATED BANGALORE, 5TH APRIL 1892.

ORDER THEREON.—**On the Avergere tank work, Davangere Taluk, 117 coolies were at work on the last day of the fortnight ending 29th February 1892, but none of them attended during the fortnight under review. Similarly a large number of children (139) that attended 3 of the works in the Challakere Taluk are**

shown to have stopped away during the fortnight under review. Such noticeable features should be enquired into and commented upon by the local officers, and the Deputy Commissioner should explain the cause of them in the returns.

2. It is noticed that the number of Relief Works has risen in one fortnight from 25 to 36 and the number of coolies from 792 to 972. The increase has been chiefly in the Davangere and Molakalmuru Taluks, while there has been a large falling off of 141 coolies in the Challakere Taluk, though the number of Relief Works there has increased by 1 (one) during the fortnight under review. The Deputy Commissioner should in future give an explanation for such changes after careful enquiry. These remarks should be attended to by all Deputy Commissioners of Districts.

3. The progress of Drinking Water wells as shown in the above seems fair, but the number of completed wells is very insignificant. Attention should be given to this point.

No work was done on 3 of the works, namely, 1 in the Chiknayakanhalli Taluk, 1 in the Kunigal Taluk and 1 in the Maddagiri Taluk, and there was no outlay on them during the fortnight.

On 3 of the works, no coolies were at work on the last day of the fortnight, though there was progress on them during the fortnight. The number of coolies on the Somlapur Tank, Gubbi Taluk, is not reported.

Columns 15, 16 and 17 (names of villages from which coolies came, whether the system adopted is Amani or Contract, in whose charge the works are placed, &c.,) are left blank against 4 works, namely, 2 in the Sira Taluk and 2 in the Kunigal Taluk.

Rama Rao, Forest Probationer on Special duty, and requesting sanction to the entertainment of a temporary establishment for that officer at a cost of Rs. 45 per mensem.

The following report on the condition of the Mysore District for the fortnight ending 15th March 1892, received with No. 1156, dated 21st March 1892, from the Deputy Commissioner of Mysore:—

STATE OF CROPS.—The standing paddy and sugar-cane crops under channels are reported to be in good condition. The crops in beds of tanks as coriander, jola and Bengal-gram are fair. In the Yedatore and the French Rocks Sub-Division Taluks, black and green gram, jola, horse-gram, gingelly and ragi in part under channels are said to be doing well. Cotton and mulberry in Tirumakudlu-Narsipur are also in good condition. No standing crops in the Nanjangud and Heggaddevankote Taluks. In Malvalli the sugar-cane is reported to be withering for want of water.

2. SUPPLY OF FOOD GRAINS AND WATER.—The supply of grain is sufficient in all the Taluks of the District. The markets are generally well supplied. Drinking water for men and cattle is becoming scarce in the drier parts of Heggaddevankote and Chamrajnagar. About 20 new wells have been undertaken in these and the other Taluks in the District. Very scanty rains fell in Hunsur, Heggaddevankote and Nagamangala. The tanks and kattés are running empty.

3. FODDER.—Available, but very dear. In parts of Chamrajnagar and Nagamangala, date and other leaves are resorted to. 860 cattle are reported to be grazing in the Appanhalli and Bellibetta kavals, Krishnarajpete Taluk.

4. PRICES.—Prices of ragi and horse-gram slightly fallen; that of rice almost stationary.

5. DEMAND FOR LABOR.—Continues to be slack. A few Relief Works have been started in the Halagur and Purigal Maganis of the Malvalli Taluk and in Villages of the Nanjangud Taluk. In the latter, about 150 coolies are reported to be employed daily.

6. GENERAL CONDITION.—Cholera continues in Ganjam. In the Inam village of Haliyur in the Yedatore Taluk, 3 deaths were reported on the 14th instant, out of 6 persons attacked. The Hospital Assistant is present in the village, and the Amildar is taking sanitary measures to prevent the spread of the disease.

Loans granted in the Bowringpet Taluk aggregated Rs. 12,160. The total amount granted for the whole District up to date of report was Rs. 48,250.

No separate Mestri was required to inspect the wells in the Bowringpet Taluk, as there were 2 Tank Inspectors working in the Taluk.

A Circular had been addressed to Amildars, requiring them and the Shekdars and Tank Inspectors when on tour in connection with other duty, to inspect wells also, and to report the result fortnightly to the Special Officer. Many of the applicants had agreed to apply for the balance of the loans sanctioned after completing the whole work and a large number had already finished a fair proportion of the work, which, in order to gain time, they seemed to have begun before the actual sanction of the loans. The work of inspection had thus become simple.

The inhabitants of Jodi Elgondalulli, most of whom were poor Brahmins, presented a petition praying that a drinking water well be sunk for them by Government. They had kandayam paying lands in Government villages, and were paying the usual local cess. All their wells, bored through rock, had dried up and a new well had to be sunk about 40 feet in rock. The petition was submitted to the Deputy Commissioner with a strong recommendation. The Deputy Commissioner states the case would be enquired into on receipt of papers and expresses a doubt whether Government should aid Jodidars in sinking a well. He adds that in one or two other cases the Jodidars themselves undertook to sink a well when they were spoken to.

The prayer of the people of Hanumanhalli village for the repair of the sluice of their tank which was leaky was brought to notice. The Deputy Commissioner has called for a report.

Report No. 1071, dated 15th April 1892 (of which an Abstract is given below), from the Deputy Commissioner of Tumkur on the result of his inspection of three of the Relief Works in the Kunigal Taluk :—

ABSTRACT.

WORKS INSPECTED.—(1) Kurdihalli Tank, (2) Bhaktarahalli Tank and (3) Chikmaralvadi Tank, all minor tanks, the earthwork required for which was being executed. The first had been completed, the second almost completed and the third half done. The first mentioned tank had received water very nearly to the brim of the kodi, but the sluice of it was leaky. The leak was however stopped. The kodi of the second and third tanks was out of order, in consequence of which the tanks could not retain any water during the recent rains. The repair of the latter would be undertaken by the Revenue Department; that of the former being likely to exceed Rs. 500 the Executive Engineer had been asked to do it.

The rate of wages on the three works was 8 cubic yards per rupee, the Public Works Department rate in the neighbourhood being 6⅔ cubic yards per rupee. As the ground had become soft owing to the recent rains, the rate would be reduced to 9 cubic yards per rupee.

ABSTRACT.

The Special Officer, assisted by Mr. Srinivasa Rao and Thandavaraya Mudaliar, inspected wells in the Taluks of Chitaldroog, Challakere, Molakalmuru and Jagalur and granted new loans in them. Mr. Krishnaiengar had travelled over the whole District, except Hiriyur. There was little or no demand for regular relief works. People had ample work on the wells, which with the Saguvali kattés sanctioned in different parts of the District were expected to provide for all those that stood in need of work for some time more. Many relief works were kept open, but in spite of ample publication, coolies were slow to take advantage of the same.

Owners of large Saguvali kattés complained of the restriction as to the amount of loans grantable under the Saguvali katté Rules. As doubts were entertained if they could apply for larger sums under the General rules framed under the Land Improvement Regulation, Mr. Krishnaiengar explained to them that there was no objection to their availing themselves of those rules, provided their lands were valuable and they could give security. The Deputy Commissioner is also of the same opinion.

The Madigars and Holiyars of Hirehalli who were in need of drinking water wells asked for grants-in-aid of Rs. 50, and promised to contribute personal labor. In all such cases it was better to grant such help to the villagers concerned than to undertake to excavate wells at great cost without the co-operation of raiyats. In every Taluk that Mr. Krishnaiengar passed through, the Amildars felt great difficulty in getting wells excavated without such co-operation, grants having been made on the suggestion of Local Fund Members without the villagers undertaking to see to the completion of the works. Hence delay in the completion of such works.

The Deputy Commissioner has asked the Amildar to attend at once to the application of the Madigars and Holiyars of Hirehalli, and with reference to the other remarks, states that wells were sanctioned on the recommendation of Amildars, that these had been directed to get the work done by the villagers concerned, and that the delay in the completion of some of the wells was due to the difficulty felt in getting skilled labor required to do the stone work.

No. D. 367, DATED BANGALORE, 22ND APRIL 1892.

ORDER THEREON.—It is noted that loans have been sanctioned for 336 wells in the Chitaldroog District up to date, to the extent of Rs. 68,445 out of a sanctioned allotment of Rs. 80,000. The work done by the Special officer is satisfactory.

2. Owners of Saguvali kattés who want loans of larger sums than those provided in the Special rules for the improvement or restoration of their Saguvali kattés can obtain them under the provisions of the General rules under the Land Improvement Loans Regulation contained in Notification No. 70 A, dated 4th January 1892.

Report dated 15th April 1892 (of which an Abstract is given below) from the Deputy Commissioner, Hassan District, on the condition of the Holé-Narsipur Taluk.

ABSTRACT.

There was no real difficulty in respect of drinking water except in one place, *viz.*, Hirihalli, as raiyats had provided themselves with temporary wells in the beds or below tanks and these afforded a good supply. The deepening of the old well at Hirihalli at an estimated cost of Rs. 178, was ordered.

There was no real necessity for Relief Works. Works had been marked for future contingencies.

There was sufficient grain in the Taluk to last for more than two years.

There were stacks of ragi and paddy straw in many villages and the draught bullocks were well fed. There was no green grass. Cattle kept for manuring purposes were ill-fed and emaciated.

There were showers of rain both in the Malnad and in the Maidan parts of the District and there was indication of more rain coming. Raiyats were hopeful and had commenced agricultural operations. Prospects of the season were most encouraging.

STATE OF AGRICULTURE AND CROPS.—Owing to a slight fall of rain during the fortnight, ploughing was attempted in a few parts of Bangalore, Closepet, Nelamangala and Anekal. The fall was scanty and partial and so was of little or no use.

Sugar-cane is sown wherever water is available, in parts of Kankanhalli, Nelamangala and Bangalore. Bengal-gram harvested in Hoskote. Sugar-cane and potatoes in Devanhalli Taluk. Out-turn 8 annas. Bengal-gram in the bed of the Yelahanka tank is stated not to be quite satisfactory.

Proceedings of the Government of His Highness the Maharaja of Mysore, (General),—dated 23rd April 1892.

WATER-SUPPLY.—Rain fall registered at Taluk Head-quarters, as follows :—

Nelamangala	0	52

Closepet	1	7
Channapatna	0	50

Wells are being sunk wherever necessary for drinking water. A few tanks in the District are reported to have received from 8 days to 2 months' supply.

PUBLIC HEALTH.—Good. Fever and small-pox to a slight extent, excepting in Kankanhalli and Closepet Taluks.

CATTLE AND FODDER.—Cattle are fed on leaves. Fodder scarce. About 15,450 head of cattle are stated to be taken to District Forests and Plantations. Dod-roga prevails in parts of Anekal. Owing to want of fodder, cattle are stated to be dying in parts of Nelamangala.

FOOD GRAINS.—Markets well supplied. Prices stationary.

RELIEF WORKS.—Number of coolies employed on Relief Works are as below :—

Dodballapur	271
Bangalore	47
Devanhalli	42

STATE OF CROPS.—The standing sugar-cane crop is reported to be withering.
PRICES—FOOD GRAINS.—Stationary.
FODDER.—The straw stocked in the last harvest is being used sparingly and paddy straw is being imported from the Mysore District.
WATER-SUPPLY.—Some tanks in the Kankanhalli and Closepet Taluks have received a supply for one or two months from the recent rain fall and there is flow of water in Arkavati stream to the extent of one foot. Channapatna Town has been lately well supplied with drinking water. 3 temporary wells are sunk in the bed of Kunirkatte, close to the new flight of steps with plenty of spring water in them. The Petta people freely use this water. The well for the use of Dayeras below the tank has been completed and there is 12 feet of water in it. The new well in the Fort has sufficient water in it.
GENERAL HEALTH.—Small-pox has subsided in the Magadi Taluk.
DEMAND FOR LABOR.—Work on the Kothnur Tank has come to a stand-still for want of labor. The laborers instead of doing the task work demand wages at the rate of 4 annas a day which is too much. From this it is inferred that they don't care to work.

Report (of which an Abstract is given below) on the condition of the Tumkur District and of the Taluks of Maddagiri, Sira and Pavagada for the fortnight ending 31st March 1892, received with docket No. 1032, dated 11th April 1892, from the Deputy Commissioner, Tumkur District.

ABSTRACT.

STATE OF CROPS.—Harvest nearly over in the Taluks of Maddagiri, Sira and Pavagada. Paddy was being harvested under the Torur Tank in the Tumkur Taluk and under the Timlapur Tank in the Huliyar Sub-Taluk. Bengal-gram was harvested in some of the tank beds of the Gubbi Taluk. The out-turn was from 2 to 6 annas.

STANDING CROPS.—Jola and Bengal-gram in tank beds were in a fair condition. Paddy under wells was thriving, but that under tank beds was not so. Sugar-cane under the Kunigal Doddakere Tank was fading for want of water. In the Taluks of Maddagiri, Sira and Pavagada, the Vaisakha paddy and young ragi were generally in good condition. Want of water for further developement of crops was beginning to be felt in parts of these Taluks.

FOOD SUPPLY.—Markets were well supplied.

PRICES.—Almost stationary, the price of ragi went down a little.

FODDER SUPPLY.—Scanty. Cattle very much emaciated. Date leaves used extensively.

WATER SUPPLY.—New wells sunk by Government were of much use. Some wells had also been sunk in tank beds by raiyats at their own cost. Some hondas for cattle ordered to be dug up in tank beds.

DEMAND FOR LABOR.—In Maddagiri, Sira and Pavagada, laborers were largely employed on private works. Labor could not be procured for the two Relief Works opened in the Maddagiri Taluk. In one instance complaints were made that Village officers pressed the villagers to do earth-work and receive wages. The officers concerned were informed through the Amildar that there was no necessity for compelling people to do Relief Work and the Amildar's attention was drawn to the observation of the Dewan in para 269 of his Notes on Tour. There was a large number of Relief Works in progress in other parts of the District and the number of coolies on them showed that the works were of some help to the poor people.

GENERAL CONDITION OF THE DISTRICT.—Influenza prevailed in Tumkur, Kunigal and a few other places.

The following report on the condition of the Kolar District for the fortnight ending 31st March 1892, received with docket No. 124-25, dated 7th April 1892, from the Deputy Commissioner, Kolar District :—

1. RAIN-FALL.—There were 40 cents of rain at Kolar, and 15 cents at Chintamani on the 31st March 1892. Rain varying from $\frac{1}{4}$ to $\frac{1}{2}$ hada fell in some of the villages of the Kolar Taluk and of the Yaladur Hobli of the Mulbagal Taluk, and in 3 villages of the Srinivaspur Sub-Taluk.

2. STATE OF CROPS.—Standing crops under wells and springs are reported to be in a pretty good condition, sugar-cane is being planted under wells. Bengal-gram and jola are harvested in parts, but the out-turn is reported to be poor. Sugar-cane mills are still at work in some places. The season for cultivating the beds of tanks with Bengal-gram and jola has passed away. Attempts are being made to raise some other quick growing crops in the beds.

3. SUPPLY OF FOOD GRAINS.—Markets are generally well supplied.

4. WATER-SUPPLY.—Is getting scarce; old wells are deepened and new wells dug to supply the want.

5. FODDER-SUPPLY.—Diminishing; leaves of trees, aloe stumps and prickly pear are used as fodder.

6. PRICES.—Stationary.

7. DEMAND FOR LABOR.—Relief Works are in progress in affected parts. The laboring classes still find private employment such as digging wells, collecting Tangadi bark and Amarayi produce under contractors.

8. GENERAL CONDITION.—No change during the week.

The Sub-Division Officer's report is hereto attached.

Report (of which an Abstract is given below) on the condition of the Chikballapur Sub-Division for the fortnight ending 31st March 1892, submitted by the Sub-Division Officer :—

ABSTRACT.

STATE OF CROPS.—Crops harvested. The crushing of sugar-cane was over. Jola had been harvested in many parts and was being cut in a few places. Jola and Bengal-gram in tank beds were being harvested.

STANDING CROPS.—The standing rice crop under spring wells was doing well.

CULTIVATION.—Sugar-cane had been planted in most places and was being planted in others.

MARKETS AND PRICES.—The markets were well supplied and the prices continued stationary.

FODDER-SUPPLY.—Insufficient, and in consequence the village cattle were deteriorating.

WATER-SUPPLY.—Difficulty was being experienced in most places. Wells were being sunk in tank beds and elsewhere.

DEMAND FOR LABOR.—There was no great demand for labor. Relief Works were not well attended and the Railway and larger Public Works found difficulty about getting labor. Tank works attracted only such as were to be benefited thereby and the people did not resort to them mainly for getting wages.

[The Deputy Commissioner observes that the majority of the coolies were from the lower classes, as Pariahs, &c., or such as were not landholders. He has called for a report on the subject].

Amani cultivation in tank beds was impracticable as the season for jola and Bengal-gram was past, and it was too late even for melons.

[The Deputy Commissioner suggests the cultivation of Indian maize and sweet potatoes as in Kolar and other Taluks].

The collection of Tangadi bark was progressing slowly and the field was preoccupied by professional traders who had made advances to coolies for the collection of the bark. Besides, the separation of the bark from the plant would be more difficult as the hot season advanced.

[The Deputy Commissioner remarks that the work may continue, the coolies being paid on the quantity collected, and that as this is a closed season no licenses would be issued to traders].

Tanks and roads would be about the most suitable form of Relief Works on which labor could be concentrated, supervised and paid, and the opening of many sided Relief Measures would be hard of management.

[The Deputy Commissioner does not agree with the Sub-Division Officer and says it would be an advantage to have different kinds of Relief Works as affording suitable employment to different professions].

GENERAL CONDITION.—Not altered since last report.

The inhabitants of the Palkanthalli village in the Mulbagal Taluk represented to the Special officer that Government should undertake the repair of their village tank which was in a ruined condition. The Deputy Commissioner observes that there are many other tanks in a similar condition and that Government cannot undertake to repair all of them at once.

The drinking water well in the Bavanatta village had run dry. The construction of a new well or the deepening of the old one was recommended by the Special officer. The Deputy Commissioner has called upon the Amildar to submit an estimate.

Diaries (of which an Abstract is given below) of Mr. Kumaraswami Naik, Probationary Assistant Commissioner, on Special duty, in the Bangalore District, from the 26th December 1891 up to 19th March 1892, received with letters Nos. 1032 and 1066, dated the 17th and 23th March 1892, from the Deputy Commissioner of Bangalore.

ABSTRACT.

Mr. Kumaraswami Naik entered upon the Special duties in connection with granting loans for Irrigation wells in the latter part of December 1891, but was not able to grant any loans till the first week of February 1892. People were generally ignorant of the rules and in some places they had misconceptions as to the scope and effect of the rules. Hence there were very few applications. Under the orders of the Deputy Commissioner, Mr. Kumaraswami Naik went round to the several Taluks of the District, inspected a large number of villages, convened meetings of raiyats and explained the rules. People nevertheless evinced much hesitation. A number of applications that were put in were afterwards withdrawn. In a large number of cases, the applicants failed to make trial borings or to pay the deposit amount of Rs. 5 and in not a few they absented themselves when required to give personal security, as provided in para 12 of Proceedings No. 7531-40—Cir. 133, dated 29th September 1891.

In many parts of the District, the system of well irrigation was not known. In the Closepet Taluk and the Channapatna Sub-Taluk, people were said to be too indolent to construct Irrigation wells, as their paddy fields were under tanks and their cocoanut gardens which were old ones did not require any irrigation. But in the Anekal Taluk, and especially near Agaram, people, who were well-to-do, were sinking Irrigation wells of their own accord in the belief that wells sunk in this season of drought would have an unfailing supply of water.

The following table shows the progress made weekly in granting loans :—

The following remarks of the Deputy Commissioner on the said diaries :—

(1). Weekly diaries in spite of reminders have not been submitted ere this. The Probationary Assistant will make himself liable to serious remarks if a diary for the preceding week is not received in the Deputy Commissioner's Office punctually on the Monday following.

(2). The Assistant's attention is drawn to the latter part of para 6 of Government Proceedings No. 9793-803—157, dated 12th December 1891, that no loan be granted until sanction of the Deputy Commissioner is obtained in each case.

(3). Progress of each work for which money has been advanced should be reported monthly Talukwar.

(4). Remarks on crops, village sanitation, drinking water wells, &c., should be communicated to the Amildars of Taluks concerned for necessary action.

(5). The diaries should be condensed to a sheet of foolscap.

No. D. 395, DATED BANGALORE, 25TH APRIL 1892.

ORDER THEREON.—**The Government share the hope expressed by the Deputy Commissioner of Bangalore that as a result of the steps taken by Mr. Kumaraswami Naik to explain the rules to the raiyats a large number of applications may, in course of time, be put in for loans for Irrigation wells in the Bangalore District.**

Proceedings of the Government of His Highness the Maharaja of Mysore, (General),—dated 25th April 1892.

2. The orders issued by the Deputy Commissioner are generally approved. The Probationary Assistant Commissioner's remarks on the state of crops, water-supply and other matters which may be referred to him by the Deputy Commissioner might, with advantage, be communicated to the Deputy Commissioner in a *separate* report or diary, so that the diary submitted to Government regarding the progress of Irrigation wells might not be unnecessarily long.

3. Mr. Kumaraswami Naik will be informed that, under the order of Government in Proceedings No. 7531-40--Cir. 133, dated 29th September 1891, personal security is to be called for only in exceptional cases. Ordinarily the land with the well would be sufficient security. It is feared that Mr. Kumaraswami Naik has not properly understood this important provision in the rules and that his consequently insisting upon personal security in a large number of cases has led to the very meagre results attained by him.

Diaries (of which Abstracts are given below) of Messrs. Kumaraswami Naik and Bapu Rao, Special officers in the Bangalore District, for the week ending 26th March 1892, received with docket No. 10, dated 11th April 1892, from the Deputy Commissioner of Bangalore :—

ABSTRACT.

I. MR. KUMARASWAMI NAIK'S DIARY.—He inspected 49 villages and approved of 33 wells; submitted recommendation to the Deputy Commissioner for granting a loan of Rs. 2,300 in respect of 8 new wells in the Dodballapur Taluk; and observed, in the six Hoblis of the Dodballapur Taluk visited by him, and elsewhere, that people were sinking several Irrigation wells without the aid of Government loans. (The Deputy Commissioner notes that there is great activity in this direction everywhere.)

Recommended repair of a drinking water well at Kattehosahalli. (The Amildar has been ordered by the Deputy Commissioner to take it up at once).

Noticed that slight symptoms of famine seemed to appear in the Dodballapur Taluk, where except in a few villages the out-turn of crops was very bad and cattle were suffering much from want of water and sufficient fodder. Inspected two Relief Works, on one of which there were 30 coolies, among them some poor Muhammadans and men of the agricultural classes. (Noted by the Deputy Commissioner.)

II. MR. BAPU RAO'S DIARY.—He selected sites for Hariali cultivation and examined village maps and accounts regarding them; inspected two Irrigation wells which were under progress on the margin of the Hoskote tank and 3 wells with reference to which there were applications for loans; inspected also the well and bathing ghats which were being built, amani at Hoskote; observed that at the Hullur Santé a large number of otherwise useful cattle were sold for half their values and some to butchers; and brought to notice the difficulty experienced there for drinking water. (The Deputy Commissioner notes that he has already told the Amildar to provide for a well there and has again issued orders.)

No. D. 396, DATED BANGALORE, 25TH APRIL 1892.

ORDER THEREON.—Recorded.

2. The activity in regard to the construction of new Irrigation wells, noticed by Mr. Kumaraswami Naik during his second tour through the Dodballapur Taluk, shows that people have been awakened to a sense of the value of such wells.

Srinivaspur	11

Rain also fell in the interior of the above Taluks varying from ¼ to ½ hada. The Chandandur tank in the Goribidnur Taluk received a supply of water lasting for 15 days.

2. STATE OF CROPS.—Crops under wells and Talaparagis are generally in good condition. Jola, sugar-cane and sweet potatoes were harvested in parts. In parts of the Goribidnur Taluk, raiyats are ploughing their fields and carting manure wherever feasible. Sugar-cane planting under wells continues.

3. SUPPLY OF FOOD GRAINS.—Markets are generally well stocked.

4. WATER-SUPPLY.—Is becoming scarce day by day. Old wells are being deepened and new wells sunk to meet the want.

5. FODDER-SUPPLY.—Difficulty is experienced in procuring fodder. Leaves of trees, stump, of aloe, prickly-pear, &c., are utilized as fodder.

6. PRICES.—Almost stationary.

7. DEMAND FOR LABOR.—Relief Works are started in places where they were required. Coolies find employment in digging Irrigation and drinking water wells, collecting amarayi produce and tangadi bark.

8. GENERAL CONDITION.—No material alteration during the week.

The following report of the Sub-Division Officer, Chikballapur, on the condition of the Sub-Division for the same period received with the above :—

1. **RAIN-FALL.**—During the first ten days of the month, slight showers of rain fell in the Chikballapur and Goribidnur Taluks. The fall near the Hill range in the Goribidnur Taluk was specially heavy, and has enabled the raiyats to commence ploughing. Chandandur tank received ten days' supply of water. In other respects, the condition of the Sub-Division remains unchanged.

2. **CROPS.**—Sugar-cane planting is still going on under wells and Talapargis excavated in tanks. Sugar-cane already planted, the standing jola crop and paddy under wells are doing well except in some parts where the newly planted sugar-cane is not doing very well, owing to insufficiency of water. The jola crop in tank beds is pretty well in some parts and drying up in others. Jola crop is being harvested.

3. MARKET AND PRICES.—The markets are well supplied and the prices are stationary.

4. THE STATE OF CATTLE, FODDER AND WATER. Village cattle are suffering. Fodder and water are scarce. Cattle are being fed on date leaves in Goribidnur and on fig and banyan leaves in Gudibanda.

5. PUBLIC HEALTH.—Public health continues to be good.

6. DEMAND FOR LABOR.—Relief Works, Irrigation loan wells sunk by private individuals and sugar-cane planting are affording ample field for the laboring classes for earning wages.

Letter No 44—5, dated 20th April 1892, from the Deputy Commissioner, Hassan District, reporting, with reference to the order conveyed in Proceedings No. D. 306, dated 5th idem—

(1) that estimates for drinking water wells at Arsikere sanctioned before the issue of order in Proceedings No. D. 152, dated 16th February 1892, for submission of Progress Returns, are in progress,

(2) that 2 wells sanctioned recently for the Channarayapatna Taluk are under construction,

(3) that, for reasons explained in letter No. 2, dated 16th April 1892, it is not necessary to construct drinking water wells in the Holé-Narsipur Taluk, and

(4) that the necessity for opening Relief Works has not as yet arisen in the said three Taluks.

No. **D.** 399, DATED BANGALORE, 26TH APRIL 1892.

ORDER THEREON.—The statement of the Deputy Commissioner that *estimates* are in progress regarding 2 wells sanctioned prior to 16th February 1892, indicates an amount of delay which is unsatisfactory.

Diary (of which an Abstract is given below) of Mr. Kumaraswami Naik, Probationary Assistant Commissioner, on Special duty, for the week ending 2nd April 1892, received with docket No. 16; dated 14th *idem*, from the Deputy Commissioner of Bangalore.

ABSTRACT.

Mr. Kumaraswami Naik inspected wells in 19 villages; selected 31 cases for the grant of loans, 20 in the Dodballapur Taluk and 11 in the Bangalore Taluk, involving Rs. 3,150 and Rs. 2,650 respectively; and submitted recommendations to the Deputy Commissioner in those cases.

The number of applications presented in the Dodballapur Taluk during his present tour was much larger than on the previous occasion. They were referred to the Amildar for early report.

Applications were received in the Bangalore Taluk from Tiglars and others owning fruit, vegetable and flower gardens, very small in area but rich and productive. Orders solicited as to whether loans could be granted to them as the crops raised by them were not very important

so far as land revenue was concerned. (The Deputy Commissioner notes that similar applications were made to him at Dodballapur and observes that he does not see why such applications should be refused).

Grantees of loans experienced much difficulty in procuring labor as a large number of wells and other works was being constructed everywhere. The cost of wells was thus increasing gradually.

Some 2 or 3 applicants returned the loans obtained by them owing to want of labor and other inconveniences.

No. D. 400, DATED BANGALORE, 26TH APRIL 1892.

ORDER THEREON.—The statement submitted by Mr. Kumaraswami Naik, should show which of the recommendations made by him were approved by the Deputy Commissioner, and to what extent loans were actually granted.

2. The names of the applicants who returned the loans obtained by them should be reported in view to the necessary corrections being made in the returns submitted to this office.

3. There is no objection to loans being granted for construction of wells in small fruit, vegetable and flower gardens, provided that the security of the land and well, having regard to the market value of the same, is sufficient under the rules.

ABSTRACT.

Wells in 23 Villages were inspected during the week.

The following table shows the number and amount of loans sanctioned during the week:—

All except one of the eight applicants of Sundarapalya had dug wells beyond the limits of their lands in kharab lands. Their applications were rejected.

The Pujari of a temple at Madivalu applied for a loan to improve the temple Inam land, but the Special Officer was obliged to decline to grant it as the man had no right to alienate the land. The Special Officer, however, observes that it seems to him the holder of an Inam like that has the same right to encumber the estate for beneficial or necessary purposes, as the Manager of a Hindu family has, and that for such an improvement he has every right to mortgage the land. The Deputy Commissioner notes that the question of advancing loans to owners of service Inam lands is pending before Government.

The necessity for a drinking water well at Banagere and the delay in starting the relief work at Maradagatta, pending the Amildar's personal inspection, notwithstanding that, as urged by the Patel, there were many persons without work, were brought to notice. The Deputy Commissioner directed the Amildar to submit estimates and report.

The representations made by the Patel of Chinchandahalli and by the people of Banavara for a relief work being started in the former village and for the Kodagi Tank in the latter village being repaired as a relief measure, were also brought to notice. The Deputy Commissioner remarks with reference to this that every villager wants his tank to be repaired.

No. **D**. 401, dated Bangalore, 26th April 1892.

Order thereon.—Orders have been issued in Proceedings No. 292, dated 31st March 1892, on the question of granting loans for constructing Irrigation wells to Inamdars and holders of Service Inams. The case of a temple servant who proposes to mortgage temple land for a loan applied for by him for constructing a well in the land cannot however be dealt with under those orders. He is in the position of a trustee and has the right to do all necessary and proper acts for improving the value of the trust property. Where there is every prospect of the well proving a success and a permanent improvement, a loan can be given to a Pujari on the security of the temple lands, care being always taken to ensure the actual expenditure of the money lent on the proposed well. It will be seen from clause (*c*) para 1 of Section 7 of the Land Improvement Loans Regulation, 1890, that land benefited by means of a work is security for a loan granted for the execution of such work. If Government do not proceed to take the extreme steps of a sale in the case of temple lands, they can readily recover any arrears from the produce in a few years. The real security, after all, is the well, and care should be taken that the loan is actually spent upon it.

2. The returns received from the Deputy Commissioner show that the relief work at Maradagatta had not been started up to the 31st March 1892. The special attention of the Deputy Commissioner is drawn to this point.

Report (of which an Abstract is given below) on the condition of the Shimoga District for the fortnight ending 15th April 1892, received with docket No. S2—78, dated the 19th idem, from the Deputy Commissioner, Shimoga District :—

Abstract.

Rain-fall.—There was rain in all the Taluks of the District during the fortnight under report. It was at Kumsi 1 inch 73 cents, and at Channagiri 1 inch 29 cents.

State of Crops.—Crops harvested.—All the crops (except sugar-cane and kar paddy) in the Channagiri Taluk and paddy and ragi in the Sagar Taluk, had been harvested. Sugar-cane was being harvested in parts of the Shimoga Taluk. The estimated out-turn of crops in the Shikarpur Taluk was the same as in previous fortnights.

STANDING CROPS.—The standing crops in the Shimoga Taluk, sugar-cane in the Kumsi Sub-Taluk and the Channagiri Taluk, and kar paddy in the Channagiri and Nagar Taluks were in a fair condition. There were no standing crops in the Honnali, Sorab and Tirthahalli Taluks.

CULTIVATION.—Sugar-cane had been planted in the Honnali Taluk and was being sown in parts of the Shimoga Taluk.

SUPPLY OF FOOD GRAINS.—Sufficient.

PRICES.—Rising in the Channagiri and Sorab Taluks and stationary in the Shimoga, Shikarpur and Nagar Taluks. The price of rice was falling, but that of ragi was rising in the Sagar Taluk and the Kumsi Sub-Taluk. The price of ragi was falling in the Tirthahalli Taluk, and that of jola rising in the Honnali Taluk.

WATER-SUPPLY.—Fair except in parts of the Shimoga and Honnali Taluks. In parts of the Nagar Taluk, the water in tanks and wells had gone down.

FODDER-SUPPLY.—Sufficient except in the Channagiri Taluk, where the last year's stock had been wholly exhausted and there was only 2 or 3 months' supply of straw raised this year.

DEMAND FOR LABOR.—People were able to find labor throughout the District. On the drinking water wells and ponds under progress in the Channagiri and Honnali Taluks, there were 227 and 128 coolies respectively.

GENERAL CONDITION OF THE DISTRICT.—Fair. Cholera was prevalent in parts of the Channagiri, Honnali, Shikarpur and Sorab Taluks.

No. **D**: 403, DATED BANGALORE, 26TH APRIL 1892.

ORDER THEREON.—The Deputy Commissioner should give a general summary of the reports received by him from Amildars with his own remarks and observations, and not a translation of each of the reports received from the Taluks. He should for the purpose take for a guide the several abstracts of reports published from this office in the "D" orders.

2. It is seen that concerning the state of crops in the Shikarpur Taluk, a stereotyped note is made in every report as follows for the past two months and more :—

"Paddy 1 to 4 annas in the Shikarpur, Esur, Hosur and Mugalgere Maganis; 4 to 8 annas in the Salur, Udagani, Jambur, Talagunda, Belgavi, and Belandur Maganis; dry crops 4 to 12 annas in almost all the Maganis; sugarcane 8 annas." Surely, the same results could not have been obtained in every fortnight for the past two or three months. A little more care in checking these returns seems necessary in the Shimoga District. The Deputy Commissioner should give some personal attention to the subject.

Report (of which an Abstract is given below) on the condition of the Chitaldroog District for the fortnight ending 15th April 1892, received with docket No. 705—665, dated the 20th idem, from the Deputy Commissioner, Chitaldroog District.

Proceedings of the Government of His Highness the Maharaja of Mysore, (General),—dated 26th April 1892.

ABSTRACT.

RAIN-FALL.—Rain fell in most of the Taluks as noted below :—

Taluks.	Inches.	Cents.
Chitaldroog	...	32
Hiriyur	...	15
Holalkere	...	30
Davangere	...	95
Jagalur	1	5
Hosdurga	2	60

STATE OF CROPS.—CROPS HARVESTED.—Cotton in Chitaldroog, Davangere and Jagalur Taluks; Bengal-gram in Davangere, Holalkere, Hiriyur, Challakere and Molakalmuru Taluks; sugar-cane in the Davangere Taluk; white cholam in Jagalur, Hiriyur, Challakere and Molakalmuru Taluks; and navane and paddy in Hiriyur, Challakere and Molakalmuru Taluks. The estimated out-turn was 4 annas in the rupee in Chitaldroog and Holalkere Taluks: from 2 to 4 annas in the Davangere and Jagalur Taluks; and from 2 to 6 annas in the Hiriyur, Challakere and Molakalmuru Taluks.

STANDING CROPS.—Vaisakh paddy was in a fair condition throughout the District, as also wheat and other wet crops under kapile wells, tanks and streams. Sugar-cane was in a fair condition in the Davangere Taluk, but withering in the Chitaldroog Taluk. The dry crops in tank beds had generally withered or were withering.

SUPPLY OF FOOD GRAINS.—There was a sufficient stock of these in all the Taluks and the markets were generally well supplied. Ragi and cholam were exported from the Chitaldroog, Jagalur, Holalkere and Davangere Taluks into different places in British Territory.

PRICES.—Generally stationary. In Holalkere, the price of ragi had fallen appreciably. At the Taluk Head-quarters, the selling prices were, rice from 7½ to 9½ seers, ragi from 17 to 29 seers, and cholam from 15 to 24 seers per rupee.

FODDER-SUPPLY.—Sufficient except in the Hiriyur, Challakere and Molakalmuru Taluks, in a part of the Hosdurga Sub-Taluk and in the Lakke Hobli and parts of the Bilchod and Kasaba Hoblis of the Jagalur Taluk. Date and kamara leaves were used as fodder extensively in these parts.

WATER-SUPPLY.—Sufficient except in parts of the Hosdurga Sub-Taluk bordering on the Hiriyur Taluk, and in such villages of the Hiriyur Taluk as are not by the river side or have no kapile wells. The recent fall of rain in the Jagalur Taluk brought a small supply to tanks and Go-kattes varying from 15 days to one month's supply.

DEMAND FOR LABOR.—There had been no increase in the demand for labor. The construction of Irrigation Wells and Saguvali Kattes afforded employment to a large number of laborers. Four new Relief Works were started during the fortnight under report.

RELIEF TO WEAVERS.—Cloths of the value of Rs. 475—6—6 were purchased from the weavers in Molakalmuru during the fortnight under report.

GENERAL CONDITION OF THE DISTRICT.—*Good.* The recent rain-fall in different parts of the District, though not sufficient to make any material change in the prospects of the season, had yet made the raiyats hopeful.

Cholera prevailed in a few villages of the Davangere, Chitaldroog and Jagalur Taluks.

ABSTRACT.

On 9 out of the 45 works, no work was done during the fortnight. The several reasons given were :—

(1.) KUNNIKERE AND BALETHAGINAKERE.—Coolies had their own work to do.

(2.) KANDIKERE TANK.—Coolies engaged in removing silt from their drinking water well.

(3.) MEDEKERENAYAKANKOTE TANK.—No demand for labor.

(4.) BHARMASAGAR TANK.—Coolies went to work on Irrigation wells in their village and the neighbouring village of Bommasandra.

(5.) AVARAGERE TANK.—Prevalance of cholera in the village and the surrounding villages.

(6.) AGASANA KATTE.—Accounts not received in time from the Shanbhog.

(7.) MALAGONDANHALLI TANK.—The sanctioned amount had been exhausted and estimate for the remainder of the work was awaited.

(8.) KUMBLUR TANK.—The raiyats protested against the restoration of the tank. The outlay on it is estimated at Rs. 10,000. 150 acres would be submerged while 200 acres would be brought under cultivation. The return on the outlay would be only 2 per cent. Work stopped after an expenditure of Rs. 13—4—3.

On the Sadarhalli Channel in the Chitaldroog Taluk, no coolies came to work on the last of the fortnight owing to a jatre.

In the Jagalur Taluk, no outlay was shown on the Anabur Tank work, although 8 coolies had been employed on it on the last day of the fortnight. The Amildar had been called upon to explain the omission.

The works (except two, which were under Shanbhogs) were under Patels and were carried on on the Amani system.

The wages paid were 2 annas and 3 pies per man, 1 anna and 6 pies per woman and 1 anna per child.

The General Assistant Commissioner and the Extra Assistant Commissioners inspected the works in their charge and were satisfied with the efficiency of the management and the supervision. The General Assistant Commissioner found in one instance in the Davangere Taluk that the quantity of work done was less than that shown in the Patel's accounts. The matter was being investigated.

II. Drinking Water Wells.—The following statement shows the number of wells sanctioned during the fortnight, the number completed and the number under construction :—

Taluk.	Under construction at end of previous fortnight.		Sanctioned during the fortnight under report.		Total.		Completed during the fortnight under report.		Under construction at end of fortnight under report.

Total.....	33	19	1	1	34	20	...	3	34	17

Notwithstanding the stringent orders issued, the progress shown by the Amildars of Hiriyur, Challakere, Holalkere and Davangere, was not satisfactory. They had again been ordered to push on the works rapidly.

No. **D**. 407, dated Bangalore, 28th April 1892.

Order thereon.—Recorded, with the remark that if no accounts were received in respect of the Agasankatte Tank, the Amildar should have called for them, instead of reporting that there was no progress on that tank.

2. The Kumblur Tank should be removed from the list of Relief Works, for the reasons given in the abstract above.

3. The Deputy Commissioner should expedite the estimate for the Malagondanhalli Tank.

No. D. 408, DATED BANGALORE, 28TH APRIL 1892.

ORDER THEREON.—These returns have been submitted very late. It is hoped that the Deputy Commissioner will make arrangements for their punctual submission in future.

The Hulikunte Tank work in the Dodballapur Taluk, which was opened as a Relief Work in February, is said to have been closed in March owing to the estimate framed by the Public Works Department not having been received sanctioned. It is not stated where the estimate is pending orders. Early steps should be taken for obtaining orders thereon.

Some tanks have been shown in the list of Relief Works although the earthwork on them has been completed, with the view of providing stone work therefor. When the earthwork is finished, the work, so far as regards relief purposes, may be regarded as having been completed, and the work omitted in the list of works in progress.

No wells were completed in the Kankanhalli, Hoskote and Closepet Taluks up to 31st March 1892, although several were sanctioned so far back as January last.

Returns (of which an Abstract is given below) showing the progress of Village Relief Works and Drinking Water wells in the Shimoga District for the fortnight ending 15th April 1892, received with docket No. 78—75, dated the 19th idem, from the Deputy Commissioner, Shimoga District :—

ABSTRACT.

I. VILLAGE RELIEF WORKS.—The number of works under progress during the fortnight under report was 6, all in the Channagiri Taluk. The number of coolies employed on them on the last day of the fortnight was 97 and the amount spent was Rs. 188—3—9. The aggregate outlay up to the end of the fortnight under report was Rs. 324—0—8. On 2 of the works, *viz.*, Mangenahalli and Siddanamathada village tank works, though there were coolies working on the last day of the fortnight, there was no expenditure. No explanation is given on the point. On the Devarahalli tank work, which was progressing satisfactorily, there was no outlay in the fortnight and no attendance of coolies on the last day of the fortnight. The coolies on the work, it is explained, had gone to a Jatre and the wages earned by them would be paid on their return next Santè day.

The works (with the exception of one which was under a Shanbhog) were under Patels supervised by the Amildars. All were being carried on the Amani system.

The wages paid were 3 annas to a male cooly and 2 annas to a female cooly.

II. DRINKING WATER WELLS.—The deepening of 4 hondas and the construction of 13 new wells were sanctioned for the Honnali Taluk during the fortnight under report. A sum of Rs. 309—4—3 was spent during the fortnight on an old well and on hondas in two villages in the Taluk.

In the Channagiri Taluk, 4 wells, 2 Hondas and 1 Katte were in progress. The amount spent during the fortnight was Rs. 137—14—8.

No. D. 409, DATED BANGALORE, 28TH APRIL 1892.

ORDER THEREON.—Recorded.

The number of wells and hondas which remained under construction in the Honnali Taluk, is not shown in Return No II. A correct statement should be submitted.

The following report upon the condition of the Mysore District for the fortnight ending 15th April 1892, received with No. 90, dated the 25th April 1892, from the Deputy Commissioner of Mysore :—

STATE OF CROPS—CROPS HARVESTED.—Bengal-gram in beds of tanks in the Mandya Taluk was harvested.

STANDING CROPS.—Paddy under the Lingambudhi tank, Mysore Taluk, and under channel fed tanks in the Tirumakudlu-Narsipur Taluk and in the Taluks of the French Rocks Sub-Division were in good condition. So was the sugar-cane in the above taluks as also in the Chamrajnagar Taluk. Black-gram and horse-gram and jola under the channels in the Tirumakudlu-Narsipur Taluk and in the FrenchRocks Sub-Division were thriving. In some parts of the French Rocks Sub-Division and in the Chamrajnagar and Nanjangud Taluks, the tanks received a supply of water from the recent rains during the fortnight and jola, coriander and other standing crops in the beds of tanks were submerged.

SUPPLY OF FOOD GRAINS.—Food grains were available for sale in all the markets.

SUPPLY OF WATER.—In most of the wells sanctioned, water has been tapped and the works are in progress. The recent rains have greatly improved the water-supply in the French Rocks Sub-Division and some of the kattés (small village tanks) in the Mysore, Tirumakudlu-Narsipur, Gundlupet, Chamrajnagar and Heggaddevankote Taluks have also received a small quantity of water.

FODDER.—Ragi and paddy straw available in all the taluks. Date leaves are also used in some parts of the Nagamangala and Chamrajnagar Taluks.

PRICES.—Almost stationary. A slight fall occurred in the price of rice in Seringapatam and Chamrajnagar and also ragi and cholam in Chamrajnagar. The price of ragi rose slightly in Seringapatam, Nagamangala and Malvalli. Horse-gram was somewhat dearer in Seringapatam and Nagamangala than during the preceding fortnight.

DEMAND FOR LABOR.—Slack everywhere. It is reported that raiyats have not resorted to the works sanctioned during the fortnight in the Chamrajnagar Taluk and that the cooly classes of raiyats go to the Public Works Department works and Relief Works in other places.

GENERAL CONDITION.—The recent rains have greatly encouraged the people. Ploughing operations have commenced and jola is being sown in almost all the taluks. People are awaiting the monsoon rains. Cholera continues in Mysore, Seringapatam, Ganjam and Hunsur. It has appeared in the Yedatore, Nanjangud and Heggaddevankote Taluks. Preventive measures, &c., for the same have been taken.

To the aggregate outlay shown above must be added a sum of Rs. 844—3—11, the amount spent on 4 works already completed in the Chintamani Taluk. Thus the total outlay up to the end of the fortnight under report amounted to Rs. 16,540—8—4.

Out of 81 works under progress, one, *viz.*, the Baichanvaddu tank work in the Bowringpet Taluk was given up as a bad selection after an outlay of Rs. 134—8—5 out of the estimated amount of Rs. 400, and another tank in the same village taken up instead.

On 9 other works, no work was done during the fortnight owing to non-attendance of coolies. On eight of the works which were under progress, no coolies attended on the last day of the fortnight. The absence in some cases was owing to a Jatre and to milling operations.

On 2 of the works in the Srinivaspur Sub-Taluk, the number of coolies on the last day of the fortnight was not reported. Explanation was called for by the Deputy Commissioner.

All the works were in charge of Patels supervised by the Tank Inspectors and Shekdar and were carried on on the Amani system.

The wages paid were from $1\frac{1}{2}$ to $2\frac{1}{2}$ annas for a male cooly (excepting head coolies, who were given 3 annas) $1\frac{1}{2}$ for a female cooly and 1 anna for each boy. They were considered sufficient. In the Malur Taluk, however, children were paid at 1 anna 6 pies each. The Amildar's explanation with reference to this was called for.

The coolies on some of the works came from more than 10 different villages and in one instance from a distance of 5 miles.

No. 67-8—6, DATED BANGALORE, 15TH APRIL 1892.

ORDER THEREON.—An estimate for Rs. 4,638 being the cost of preparing and fixing pinnacles on the towers of the temple is submitted for sanction. This work is not required, at least, for the present, and therefore the estimate is returned herewith unsanctioned.

2. The other two estimates amounting to Rs. 6,388 * (including the temporary establishment charges) for repairing and improving the main temple, and the Vahana Mantapam are sanctioned,

	Rs.

Do for repairing the Vahana Mantapam of the Institution	1,538
Total Rs.	6,388

subject to the following modification:—

In the estimate for Rs. 4,850 the *Brick in Chunam* walls have been entered at one and a half feet thick for a height of 8 feet. There being no weight to be supported and the walls not being exposed to the weather, they may be built of *Brick in Clay* instead. By this modification, a saving of Rs. 471 can be effected and utilized in forming a flower garden for the benefit of the temple on the old building site close to it belonging to the Palace, which His Highness the Maharaja has been graciously pleased to make a present of to the temple.

3. The cost of these improvements now sanctioned will be met from the sum of Rs. 12,903—8—4 (as particularized in the margin) available at the credit of the temple at the end of October 1890.

No. 56-66—CIR. 3, DATED BANGALORE, 18TH APRIL 1892.

ORDER.—It has been brought to the notice of Government that there exists now in many Muzarayi institutions a practice called "Bab Heralle," *i. e.*, utilizing one item of sanctioned allowance or the savings effected therefrom, for another without any authority. Government consider that this practice is very objectionable and that it should be at once put a stop to.

2. They therefore direct that this practice wherever it may exist should be discontinued in future and that if any necessity arises in any of the Muzarayi institutions to utilize one item of allowance for another, previous sanction of Government in the Muzarayi Department should be obtained therefor.

Petition M. No. 107, dated 21st March 1892, from one Srinivasaiya, son of Puttannaiya, Parpattegar of Narayanaswami and other temples at Tonnur, Seringapatam Taluk, stating that his father was the Parpattegar of the temples, that after his death another man unconnected with the family named Stanik Ramanujaiengar was appointed temporarily in lieu of his father and that the petitioner's claim for the appointment was overlooked.

No. 77-85—CIR. 4, DATED BANGALORE, 19TH APRIL 1892.

ORDER THEREON.—The petitioner states that one Ramanujaiengar, Parpattegar of the Gangadharesvaraswami temple at Seringapatam, got the name of his son (who was a minor) registered as Parpattegar of that temple, and obtained orders to appoint another man to do duty during his minority. The petitioner, who is also a minor, requests on the above grounds that orders may be similarly issued to register his name as Parpattegar of the temples at Tonnur.

2. The appointment of Parpattegars in temples is not hereditary and therefore the petitioner has no claim for the appointment held by his father.

3. Government observe that the practice of registering the name of the minor son or that of the nearest heir of a deceased Parpattegar as claimant for the office and of appointing another to do work during his minority, is an unauthorized one and they direct that such practice be discontinued in future.

This is highly objectionable.

2. The Government therefore direct that no portion of the Napavati amount will, in future, be appropriated for any purpose without the sanction of the Government in the Muzarayi Department, and that all amounts of Napavati should, in future, be credited to the Treasury at the end of every month regularly.

PUBLIC WORKS.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Public Works),—dated 1st April 1892.

READ:—

Circular Memorandum from Chief Engineer to Deputy Commissioners and Executive Engineers No. 102, Camp Challakere, of 24th December 1889, regarding the rates of contribution to be levied from raiyats for Tank restorations and Irrigation projects.
Correspondence following on above.

No. 1769-89—320-40, DATED BANGALORE, 1ST APRIL 1892.

ORDER THEREON.—Having duly considered all the arguments for and against the system hitherto in force of exacting money contributions from the raiyats towards all Tank and Channel works in which they are interested and more especially bearing in mind the unfair incidence of such contributions, the Government have now determined to waive altogether the compulsory levy of such. Tank restorations and new Channel projects will be dealt with on their own merits, excepting that, in the case of works costing over Rs. 25,000, the rules laid down in Circular No. 1382-90, dated Mysore, 1st October 1888, prescribing the sale of unoccupied dry land likely to be converted into wet, and an acreage contribution on occupied lands that will be benefited, shall be duly enforced. Henceforth therefore contributions will not be demanded for irrigation works costing less than Rs. 25,000, and sanction to such projects will be conferred solely with reference to the enhanced revenue likely to accrue therefrom and to the local prosperity of the villages affected, or, in times of scarcity, to the extent of relief the works are likely to afford in the neighbourhood. At same time, it is to be understood that, as available grants are limited and only a certain number of new works of this class can be undertaken each year, voluntary contributions from the raiyats interested will, *cæteris paribus*, determine the priority to be given to particular works over others. In other words, projects towards which the raiyats of their own accord come forward with liberal contributions, will be given precedence in investigation and eventual sanction, should they fulfil the necessary conditions of being fairly remunerative from a revenue point of view and otherwise evidently useful public works. Such voluntary contributions, when offered and accepted, should be paid down before commencement of work, and they will not be allowed to encumber the Public accounts as recoverable items.

II. It is understood that there is at present in the Comptroller's and and Public Works Offices, a long list of unrecovered contributions. These contributions extend over many years and their ultimate recovery seems more than doubtful. Indeed, the amounts involved are hardly worth the trouble and complications arising from the demands for the same, each individual item being small and being invariably disputed. These outstanding balances of contributions are now declared irrecoverable and may be wiped off the books.

1	13.	1st	The 1st Assistant to the Resident in Mysore.	Conveying the confirmation of the Darbar to the sanction of estimate for Rs. 4,303 for sinking a well at the Bangalore City Station under the circumstances explained.
2	17.	2nd	Do do	Representing that the present rules regarding "Foreign Service" contained in Chapter XXII of the "Mysore Service Regulations" prescribe a contribution, *on account of Pension alone*, of one-eleventh of gross salary not exceeding a maximum of Rs. 100 a month, *vide* Section 390. Before the above regulations were introduced in October 1891, the Darbar were guided by the rules in the British Civil Pension Code, (6th edition), Section 9 of which provided (1) for a contribution of one-seventh of the gross salary (not exceeding a maximum of Rs. 166, two-thirds in the case of uncovenanted officers whose maximum annual pension is Rs. 5,000 for both pension and leave allowances, other than during privilege leave; and (2) for a contribution of one-eleventh of gross salary for pension alone. The "Mysore Service Regulations" omitted provision for leave allowances; but the Darbar is now prepared to introduce an additional rule and to extend the same to the Railway employés under the Southern Mahratta Railway, levying from them contributions at one-seventh of their gross salary, which would be one-sixth of the net salary left to the employés. The period *during* which leave is earned will in every case correspond to the period for which such enhanced contribution is levied. If the latter is paid in arrears by the employés in question *corresponding* retrospective effect will be given as regards the former, namely, the leave allowances, and arrangements will be made to receive the same and guarantee leave allowances to those in respect of whom it may be paid.

To these proposals the Darbar did not consent as in their opinion they would have unduly taxed the Gold Mining industry and the public. The Darbar look only for a moderate interest on the capital outlay. It only now remains to obtain the ratification of those terms by the Railway Company and this the Darbar hope the Resident will be able to arrange for at an early date as it is desirable to take the work in hand in the course of next few months.

The proposal is accordingly approve The amount should be forthwith collected fro Kariya and a report submitted to this office.
2	862—P. 34.	11th	The Deputy Commissioner of the Bangalore District.	In the matter of Petition No. 2074, dat 2nd December 1891, from P. Herman, Cubbo Petta, Bangalore, appealing against Depu Commissioner's Endorsement No. 211, dat 11th November 1891 refusing to strike off t water-rate imposed, at his (Petitioner's) reque on a portion of his dry land Survey No. 54 the Tavarekere village—read Deputy Commi sioner's report No. 1076, dated 31st Mar 1892. *Order thereon.*—It has been ascertain from the Deputy Commissioner that, at the Pet tioner's own request, a water-rate of Rs. 2-8 per acre was fixed by the Survey Departme permanently, in 1882, on 2 acres and 1 gun of his dry land No. 54 in Tavarekere villag and that his prayer for the removal of t water-cess was rejected by the Deputy Co missioner in 1891 as the kodi of the tank h not been lowered as alleged by Petitioner. T Government therefore decline to interfere.
3	771—P. 16.	14th	The Deputy Commissioner of the Tumkur District.	Appeal No. 894 of 1887. *Appellants.* *Vs.* *Respondent.* 1. Bore Lingegauda. 2. Hanumegauda. (Original Plaintiffs.) — Siddaramegauda. (Original Defendant.) Plaintiffs sued to recover the Patel-sh of Karigere, Chiknayakanhalli Taluk, fro Defendant on the ground, that they were t sole hakdars of the office and that, in 187 when Plaintiffs were minors, Defendant obtai ed the office by fraud and false representation Defendant denied having obtained t office fraudulently but pleaded that Plaintiff ancestors and Defendant's forefathers we

				joint hakdars; that in 1876, when 1st Plaintiff's father Boregauda and Defendant were jointly performing the duties of the office, an order was passed by the Deputy Commissioner to the effect that Defendant alone should continue to perform the duties of the office, two officiators being unnecessary, and that Boregauda's name should be simply registered as the Hissedar, that ever since Defendant alone has been the Patel, and that the present suit was not sustainable. The Deputy Commissioner of Tumkur found that Defendant and his father Dasegauda had been performing the duties of the Patelship for more than 20 years and that although up to 1877 both the members of Plaintiffs' and Defendant's families were jointly doing the duties, yet, in pursuance of the order of Government that there should be only one Patel for each village, the Defendant was, in that year, appointed the sole officiator, 1st Plaintiff's father's name being registered as Hissedar. The Deputy Commissioner further found, that Plaintiffs failed to prove the allegation of fraud and misrepresentation put forward in their plaint, and dismissed the suit. Plaintiffs have preferred this appeal. Their Advocate Mr. Lubeck chiefly contended that Plaintiffs were unlawfully superseded in 1877 and that Defendant, who was in no way related to Plaintiffs, had no right to the office. On a perusal of the Proceedings, the Government are of opinion that Plaintiffs have utterly failed to prove that Defendant has been guilty of any fraud or misrepresentation. In the Barabaluti Register of Raktakshi (1864-65) the Defendant's father Dasegauda and 1st Plaintiff's grandfather Bore Lingegauda are shown as hakdars. Some of Plaintiffs' own witnesses (3rd, 5th and 6th) confirmed the testimony of Defendant's witnesses to the effect that Plaintiffs' father and Defendant's father jointly performed the duties of the office and that they were "gnatis." The exact relationship of Plaintiffs to Defendant is not proved, but that is immaterial, as it is clearly established that from 1864 up to 1877 both the families jointly performed the duties of the office and that, since 1877, Defendant has been the sole officiator. Such long possession and enjoyment on the part of Defendant is confirmatory of the fact found by the Deputy Commissioner, on the strength of the entries in the Barabaluti

				Register, that Defendant was a joint hakdar with Plaintiffs. Even now Defendant does not dispute Plaintiff's right as Hissedar, but his contention is that Plaintiffs have no present right to oust him. *Decision.*—Government consider that this contention is well founded. Having been a joint hakdar with Plaintiffs since 1864, and having been appointed by Government so far back as 1877 as the sole officiator, Defendant is entitled to continue in that office undisturbed and Plaintiffs' claim to perform the duties of the office could only be urged or entertained when the office becomes actually vacant. The present appeal is therefore dismissed.
4	861—P. 33.	14th	The Deputy Commissioner of the Bangalore District.	In the matter of Petition No. 1622, dated 1st October 1890, from Putta Murtyachar, Jodidar of Naraganahalli, Devanhalli Taluk, complaining against Deputy Commissioner's Endorsement No. 110, dated 16th September 1890 intimating that his (Petitioner's) ⅛ share in the Jodi Naraganahalli village would be sold, in the event of his failing to pay his arrears; and praying that the whole village be sold as it is not divided into vrittis and as the other shareholders have misappropriated the money due to him —read Deputy Commissioner's report No. 372 dated 31st July 1891, and the proceedings in the case. *Order.*—If other hissedars have misappropriated the money due Petitioner, his remedy is a Civil action against them.

In the matter of Petitions Nos. 1901 and 427, dated 3rd December 1889 and 11th June 1890, respectively, from Narayan Rao of Kasaba Sidlaghatta, Kolar District, complaining against Deputy Commissioner's Endorsement No. 8, dated 6th September 1889, rejecting Petitioner's claim to the Shanbhogship of Sigehalli, Goramadagu and Narahunisanbal villages in the Sidlaghatta Taluk, on the ground that Venkatagiraiya, being the Registered Shanbhog, had, on account of his ill-health appointed Ramaiya and Vasudevaiya as Gumastas to perform the Shanbhog duties of Sigehal and Goramadugu villages, and had alienated his "Stala" Shanbhogship of Narahunisanbal to Government Shanbhog Chikka Nanjundappa who had the village in his charge from th

He will be allowed a month's time to remove and to report through the Shanbhog to the Amildar of Dodballapur that he has done so.
